STUDENT CHAPTER

2023–24
BULLETIN
Odd Semester

CHALLENGE. SEIZE. INFLUENCE.

COUNCILOR'S MESSAGE

I would like to commence by applauding the CSI TCET faculty and the students for their persistence during the odd semester and for finishing the eighth edition of the bulletin, which emphasizes them. Their hard work and complete commitment are reflected across its pages. In the face of adversity, the professors and students of CSI TCET have consistently delivered the finest outcomes.

This bulletin represents the commitment of our earnest and focused students to carry out productive activities for the department. Student's willingness for developing a better society through invention and technology is reflected in the CSI TCET student chapter. Providing a stage for students' overall development.

Dr. R.R. Sedamkar

HOD'S MESSAGE

I deeply believe in a quote that says In learning you will teach and in teaching, you will learn. Although this not just happens through books and lectures it happens through experiences as well. The members of CSI TCET attempt to carry this baton of learning by offering a variety of co-curricular and extracurricular activities. For this, I would like to thank and congratulate the CSI TCET faculty in-charges and students for leading and assisting with the majority of the department's operations.

The bulletin highlights CSI TCET Core's outstanding, exceptional and remarkable achievements in the even semester of the academic year 2023-24 and I wish the committee continued success in the years ahead.

Dr. Harshali P. Patil

CHAIRPERSON'S MESSAGE

"Coming together is a beginning; keeping together is progress; working together is success. There is no 'I' in a team, but there is in win. Teamwork is the ability to direct individual accomplishments toward organizational objectives. Alone, we can do so little; together, we can do so much."

- Henry Ford

"Alone, our accomplishments are limited, but together, our potential knows no bounds. Collaborating with this extraordinary team has been an exhilarating and enlightening journey. Day in and day out, this team has tirelessly worked to bring high-quality events to the students of our college and beyond. I couldn't be prouder of our entire Core Team and the dedicated Working Committee. We hope you all enjoy this glimpse into some remarkable events in this edition of the CSI TCET Bulletin."

Ms. Purvashi Shah

FACULTY'S MESSAGE

CSI committee's unwavering efforts, tireless work as well as their desire to continue expanding as a collaborative team, have resulted in a stunning diversity of space for everyone to acknowledge and be a part of. I congratulate my team on this fantastic achievement and on their success in transmitting all of the events to students via CSI's Bulletin.

Mr. Vikas Singh

We at CSI TCET wish to provide students the finest chance to show off their skills, abilities, develop a vision and maintain the necessary professionalism. Lastly, I would like to congratulate the CSI committee on the successful launch of their seventh Bulletin. They have pooled their creative abilities to make it for the students.

Mr. Shailesh Sangle

ABOUT US

CSI TCET is the student branch of the Computer Society of India (CSI) at Thakur College of Engineering and Technology (TCET), Mumbai. CSI now has members from all around the country, including well-known business leaders, outstanding scientists, and committed academics. The mission of CSI is to instill research, knowledge exchange, learning, and career advancement in individuals while also motivating and developing fresh talent and breakthroughs.

CSI TCET also strives to provide TCET students with the best opportunities and courage to absorb knowledge, cultivate an open, creative ideology and get experience in a variety of domains, allowing them to become better professionals with superior skill sets. CSI TCET has grown to become one of the most active student-professional bodies at TCET, with over 300 members. We appreciate everyone who has gotten engaged with us, supported us, and helped us succeed.

WEBINAR ON ENTREPRENEURSHIP

The seminar was organized on 11th August, 2023 with 100+ students. It aimed to provide startups with a comprehensive understanding of legal frameworks, ethical considerations, and compliance necessities crucial for their success. Participants explored legal structures and grasped the importance of adherence to laws. Ethical principles were highlighted to nurture transparent and accountable business practices. Strategies for managing risks and ensuring sustainable growth were discussed, alongside opportunities for networking and collaboration to create a supportive startup ecosystem. The seminar provided valuable insights into starting and running businesses, with a specific focus on legal and ethical aspects. Participants gained a better understanding of different types of business rules and how they can make informed choices to build a strong foundation for their startups.

FINANCIAL ADVICE FOR ABROAD STUDIES SEMINAR

CSI organized a webinar about the loan procedure of overseas universities which is another important factor while preparing for higher studies. The speaker for the webinar was Mr. Aman Jain, the founding member and CMO (Chief Marketing Officer) at GyanDhan. The session was conducted on 04th September, 2023 in online mode. The virtual meeting started sharp at 05:30 pm and more than 100 students attended the webinar. The session was finally concluded at 06:30 pm. with the Core committee of CSI-TCET delivering a vote of thanks to all the guest speakers for sharing such vital information with the students.
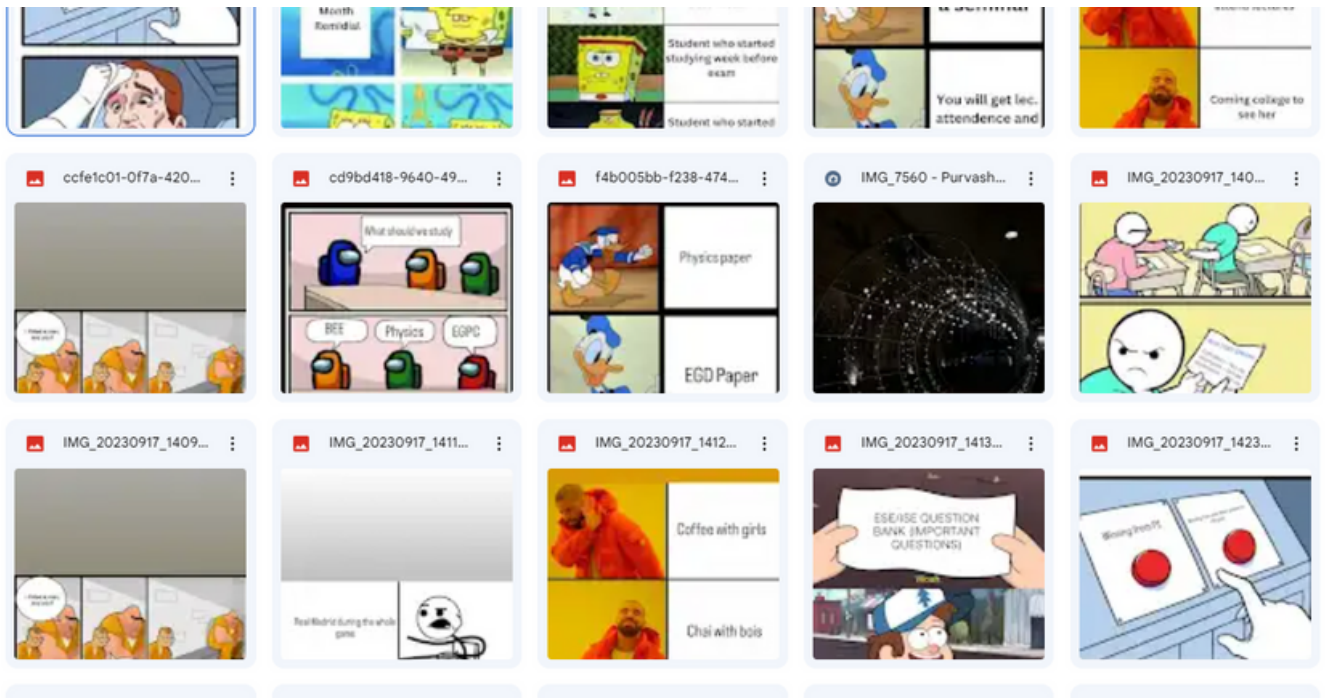

LOCAL INDUSTRIAL VISIT

CSI-TCET organized a local industrial visit to LightForce Building Private Limited, with over 50 students on 8th September, 2023. One of the most significant takeaways was a comprehensive grasp of how technology used in the company seamlessly connected devices and sensors, allowing them to communicate and share data, ultimately leading to the creation of intelligent and responsive systems. Witnessing devices in action in fields such as healthcare, manufacturing, agriculture, and smart cities was particularly enlightening. Students saw how Buildint made devices for ATM machines across the country which are enhancing efficiency. This practical exposure reinforced students' understanding of the tangible benefits and transformative potential of technology.

HIGHER STUDIES SEMINAR WITH SI UK

CSI-TCET organized a higher study seminar to make students aware of how things work overseas, to make students aware of all the elements of higher studies, and what will be the costs and expenses of living abroad. The session was conducted by Mr. Bhavesh Patel and Mr. Nayan Khupte of SI UK Education, on 11th September 2023. The offline meeting started at 11:00 am and more than 100 students attended these sessions. The session began with an overview of the advantages of pursuing higher education. The students responded positively in the sessions, with the majority of their questions being answered during the presentation

CSI DIGITAL HUMOUR CONTEST

The Digital Humor Contest, conducted on September 17, 2023, at 3:30 PM, was a light-hearted and entertaining affair that allowed participants to unleash their creative humor. Using provided templates, contestants ingeniously added humorous captions, resulting in an array of comical and clever entries. This event successfully celebrated the fusion of digital creativity and humor, leaving both participants and the audience in splits of laughter. It was a memorable showcase of wit and imagination.

GENERATIVE AI WORKSHOP in ZEPHYR

The Gen AI Workshop at Zephyr, led by Hrishikesh Yadav, was a transformative experience held on October 4, 2023, in two different slots. Participants gained in-depth knowledge of artificial intelligence, engaged in practical sessions, and explored real-world applications. The workshop fostered collaboration and networking, leaving attendees inspired and equipped with valuable AI skills to apply in their endeavors. It was a resounding success, and we anticipate more enlightening events from Hrishikesh Yadav in the future.

HIGHER STUDIES SEMINAR WITH IMS

CSI-TCET organized a higher studies seminar to make students aware of all the aspects of higher studies. The seminar was conducted by Ms. Ranjana Singh, Mr. Vignesh, Ms. Hiral Makwana and Mr. Rahul Singh of IMS on the behest of CSI-TCET on the 19th of October 2023. The offline seminar started at 03:30 pm and more than 80 students attended the session. The session began with an overview of the advantages of pursuing higher education. CSI-TCET organized a higher studies seminar to make students aware of all the aspects of higher studies.

You witness the **best** because you witness the working of **CSI**.
