*Dean SSW  
Dr. Lochan Jolly*

**Dear Readers,**

**It always gives me immense pleasure to speak to you all through this platform. Happy Diwali to all of you. Hope all of you had a great Diwali.**

**Now that SE students have started coming to college for practicals, it is really good to see the students back in campus after so long. We teachers have really missed you all for so long.**

**Hope soon every thing will be normal and we all will function the way we used to work pre-covid.**

**I would request all to take care and be cautious. Do not forget the protocols for your safety.**

**God Bless you all**

**Cordially,**

**Dr. Lochan Jolly  
Dean SSW**

# Faculty Guidance

In the blink of an eye, youth and life itself pass us by. As a result, it is critical that you consider what you can do to help society and the country. God has placed all power in the hands of the youth so that he can properly carry out his responsibilities. They should begin to think optimistically and creatively. They must cultivate the spirit to challenge society's flaws. They must understand that now is the time to act.

Youth should not choose a road that is simple and convenient. Nobody grows up in a spoiled atmosphere. These are some of the most important tasks that the younger generation should instil in them; It is the youth's obligation to grasp the value of time. They need to act quickly at all times, thus timeliness is essential. Youth must recognize the need of discipline in their lives. Young people can't work passionately if they don't have discipline.

They must not be impetuous and must think before acting. It is critical to consider your options before acting. This is how the youth may contribute to the development of a mindful society. Character is what makes a country great. Young people must be morally strong, introspective, and dedicated, as this will motivate them to behave in the best interests of the country.

*Faculty In-Charge*  
*Mrs. Poorva Waingankar*

The future of the country is now in the hands of the youth. The baton has been passed down from generation to generation. Young people have more dreams, passions, and hopes at the same time. Any country's youth represents the country's future. For the country's development, young people must put in long hours in whatever area they choose, be it teaching, farming, mechanics, or any other. Today's kids have hurdles in terms of employment, drug usage and many other distractions, but there are ways to overcome some of these obstacles. They must grab whatever work opportunity that comes their way until they obtain what they desire.

Youth empowerment can eradicate poverty from the country. They play an important role in the constructive process of building social cohesion, economic prosperity and political stability of a nation in an inclusive and democratic way.

Nothing compares to the charm of youth. Being youthful entails possessing a treasure of limitless value considerably more than any powerful person. It is the elder generation's obligation to equip them with the necessary resources, direction, and a positive environment so that they can become powerful change agents in their communities.

# Editorial Foreword

## -Editor's Desk

Dear Readers,

With this magazine, we intend to showcase our strides of glory through the various activities & events that we conducted this RI year so far. We intend to inspire our readers with our activities, so that they can be of more help to the society around them and in turn contribute more towards building a more humane world around us! We believe that through our magazine, we will be able to inspire the youth of today, to understand and imbibe the virtues of compassion and service in their lives. Ever since our inception as a Rotaract Club, we have strived to enhance our capabilities and understanding of the various challenges faced by the society around us and come up with various activities that promoted virtues like harmony, peace & compassion amongst people living around us. We have dedicatedly worked to enhance the reach and impact of our activities over the years. Hoping to instill in all our readers a fire of service, as we were instilled with at our inception, as the most invaluable diamonds found in the world are the ones that absorb the most heat!

Yours Sincerely,

Rtr. Mitali Mandge, Chairperson Publications (2021 - 22)

&

Rtr. Malcolm Cardoza, Editor (2021 - 22).

# The Collared Talk

## -President's Message

**Dear Readers,**

**Hello everyone. Heartfelt welcome to this magazine. We always manage to come up with new and exciting activities to carry out in the Rotaract Club of TCET. Hence, this magazine holds amazing memories of all the wonderful activities that we have conducted in the past few months. We always support and appreciate those who want to learn, achieve and become successful on their own strong will with special recognition to the members who participated in district events and brought laurels to the Club. You will find joy, kindness, excitement, love and the urge to grow together after reading this magazine.**

**Valerie is more like a book of memories than a magazine where readers would definitely love to join such an organization after reading it. I hope you enjoy the magazine as much as we did!**

**Regards,**

**Rtr. Kunal Miskin.**

**President of RCTCET.**

**"LIT - Learn. Improve. Transform."**

**Rtr. Kunal Miskin  
President 21-22**

# The CORE Journal

*"The journey of a thousand miles begins with one step."*

*Learning new things has been a constant in this journey, after each period, each project, each meeting and every achievement. Bringing togetherness, being happy, helping others through our small actions and updating ourselves with the growing world has been the motive of the club. I aim the same for my life.*

*-Rtr. Kunal Miskin, President 2021-22.*

*"A lot can happen in a year."*

*I am grateful to have joined RCTCET in my second year as it has been my constant support system throughout the past year and a half. My first year in RCTCET was life changing for me and if I had the choice, I would choose my RC chosen family all over again. Kudos to the whole team!*

*-Rtr. Bhushan Nehete, Secretary 2021-22.*

*"A comfort zone is a beautiful place, but nothing ever grows there."*

*This is what I have learned after joining RCTCET. From Jt. Community Service Director of last year to the Vice President of this year, RCTCET has always helped me push myself and become a better person. I have learnt a lot from my journey in this club, and I hope I learn more in the coming times.*

*-Rtr. Janhavi Mishra, Vice President 2021-22.*

*"Start where you are, use what you have, do what you can!"*

*Joining RCTCET was one of the best decisions of my life. As the Treasurer of RCTCET I learn and grow every day. RCTCET has given me learnings for life along with friends and memories that I will cherish forever. Rotaract gave me the opportunity to find the best in me and I am forever grateful for that.*

*-Rtr. Sachet Engineer, Treasurer 2021-22.*

*"Loving whatever you are doing is a bliss"*

*The journey with RCTCET has always been a two way process. We grow a tendency of helping in smallest way we possible can, and in return we help ourselves grow as a better person for this world. This organization has made me a confident person and I hope the fortune of RCTCET will always be like a polestar, constant and forever shining.*

*- Rtr. Shruti Dubey, Chairperson HRD 2021-22*

*"Coming together is a beginning. Keeping together is progress. Working together is success." This is what the rollercoaster ride that is RCTCET has been for me. All of us working together for the same goal has been our key mantra. Team work is what eases our work and at the same time provides us the support we need to keep relentlessly pushing our limits to achieve what we never could individually.*

*-Rtr. Nishank Shetty, Sergeant-At-Arms 21-22.*

*"Happiness is not by chance, but by choice."*

*The past few months have been a rollercoaster for me in RCTCET, but there has not been even a single unhappy moment. My team has always managed to lift my spirits and make me laugh even when I was at my lowest and I'm grateful to have met them. This RCTCET family is my chosen happiness and the best part is that I get to make new memories with them every single day. I am forever grateful.*

*- Rtr. Mitali Mandge, Chp. Publications 2021-22*

*"Remember why you started."*

*My journey of RCTCET started this year and since then I am growing and learning everyday. RCTCET made me change as a person, it introduced me to my worth and my limits. It introduced me to my strengths and if not this club I would have never believed myself. I'll forever be grateful to whatever this journey is shaping me into*

*- Rtr. Muskan Sinha, Jt. Secretary 2021-22*

*"Success often comes to those who dare to act."*

*Before society, one should change themselves. RCTCET is something which takes out that change within you. As far as my journey in RCTCET, I have learnt to always be strong and firm. Definitely, you will come across many demotivators, but it's only you who should be confident enough of yourself. Keep doing your work, your haters will be your followers one day.*

*- Rtr. Aditya Jaiswal, Jt. Secretary 2021-22*

*Regards,  
Core 21-22*

# ABOUT US

Our Theme for RI Year 2021-22 is,

**"Learn Improve Transform-LIT"**

We, at RCTCET, believe in a simple yet profound idea, "No success comes without **hardwork & dedication!**" For us, the process of continuous development & growth is of paramount importance!

We believe that through understanding and 'Learning' about the various ethical principles that we as a Rotaract Club stand for, it would greatly help us in becoming better humans at service. Further, as we learn and develop our own selves as well as the community around us, we also validate the importance of acting on this knowledge by 'Improving' our approach towards humanity's service, and in turn have a truly lasting impact on the greater world community. Finally, after achieving all these important milestones, we aspire to realize our most ambitious dream i.e. to completely 'Transform' the society that we live in, into an abode worthy of praise and brimming with virtues of kindness & humanity!

This philosophy is truly our prime goal that we as Rotaractors strive for in all our undertakings and we believe that this year we shall undoubtedly be successful in Learning, Improving & Transforming the world into a place LIT with optimism & humanity!

# Sankalp

## Our Introduction

“कुछ कर गुजरने के लिए मौसम नहीं मन चाहिए | साधन सभी जुट जाएंगे संकल्प का धन चाहिए ||”

We staunchly believe that it is a person or an organization's sheer willpower that enables them to move up the ladder of success! We, at RCTCET, advocate firmly about the importance of willpower and ambition in all our undertakings! In the past few years of our journey, we have climbed the ladder of significance immensely, one of the major contributing factors to this phenomenon is enshrined in our foundational beliefs and purposes as a Rotaract Club, that focused on harmonizing and improving our community into a more responsible and contributive society enriched with humanism and optimism!

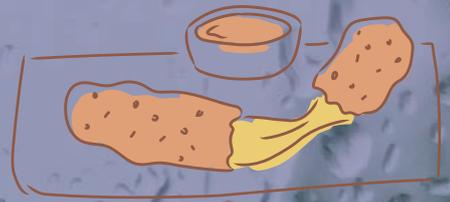

We feel extremely poised to share our experiences with all our readers while conducting various impactful activities this year. It is our belief that through our persistent efforts in providing service to our community we would be able to inspire the youth and other active members of our society to participate more enthusiastically in the work of progressing mankind through humanity. Our prime motive behind all our activities is always to humanitarian ideals and virtues in our society through acts of kindness, compassion, and hope.

We also believe that as important as the virtues of humanity and compassion are to our survival as a species, the environment and nature around us are also extremely important aspects that we have to consider for our existence! With this being one of our institutional aims as a Rotaract Club, we have undertaken many efforts this year too, to create a more healthy environment around us and develop a mutually harmonious relationship with nature as well! With a view to cumulating all these virtues and ideals into our club's ambitions, we have come up with all the following activities presented before our readers in this magazine! Striving for a better tomorrow for humanity, we hope to light a sense of purpose and optimistic determination in all our readers! So let's go ahead and have a glimpse of all our marvelous activities, shall we?

Some fun facts about  
RCTCET

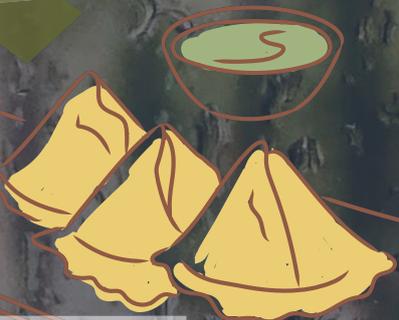

Rotaract Club of TCET  
was chartered in 2017  
and has completed over  
318 projects since the  
charter year.

In the RI year 2020-21,  
RCTCET was included  
in the top 20 clubs of  
the district, securing  
19th rank for itself!

RCTCET for the year  
2021-2022 is a  
team of 24  
Core-BOD and  
239 members!

RCTCET was  
awarded the AARA  
for the best website  
in RID 3141!

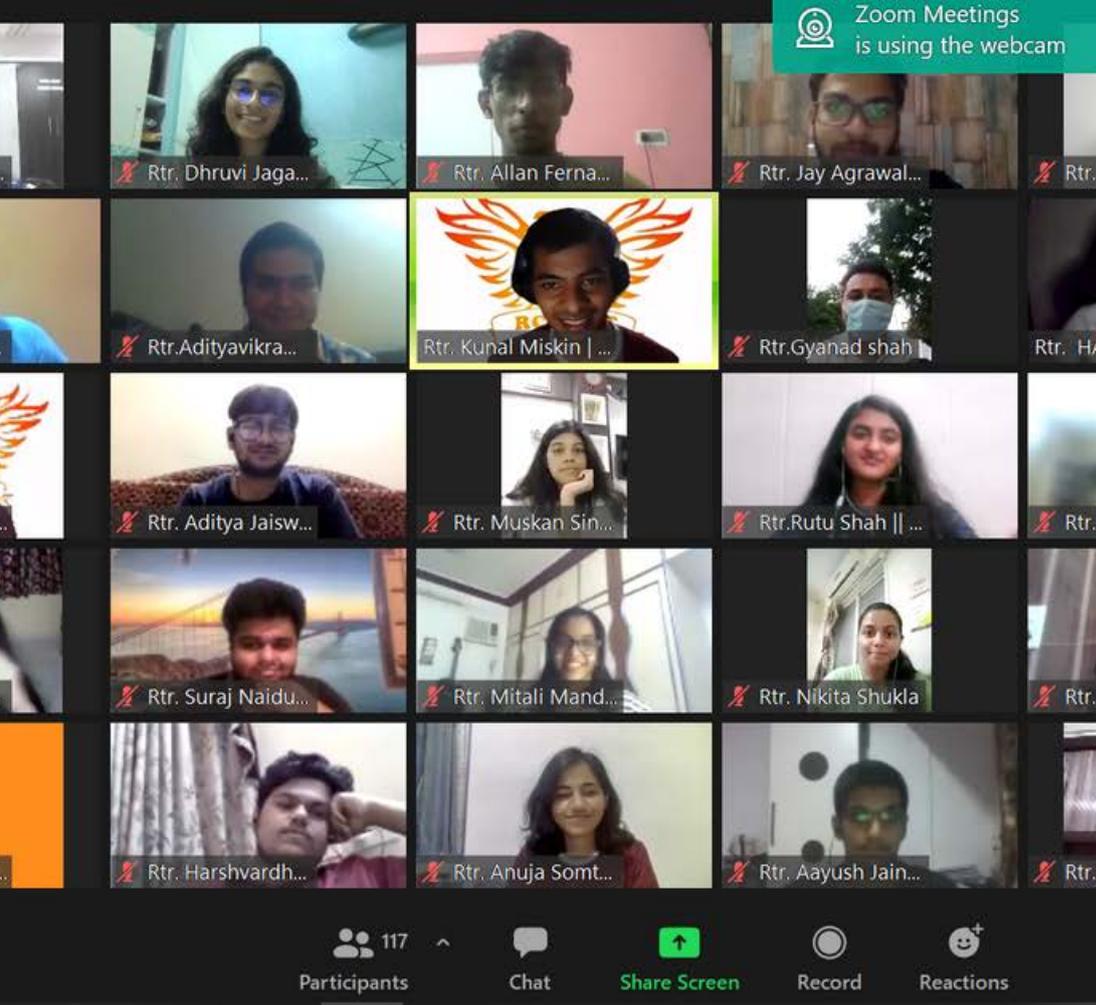

JOYFUL

*July*

BEGINNINGS

# GENERAL BODY MEETING-1

“The building is only as tall as the foundation is strong enough to build on.”

A general body meeting is always needed to inform the members about all the happenings of the club and district. It keeps them up to date about the various upcoming activities and helps them get acquainted with one another. The first general body meeting is hence, an essential meeting as it is the first time that the members get an insight into the club’s working and interact with other members who are also a part of the club.

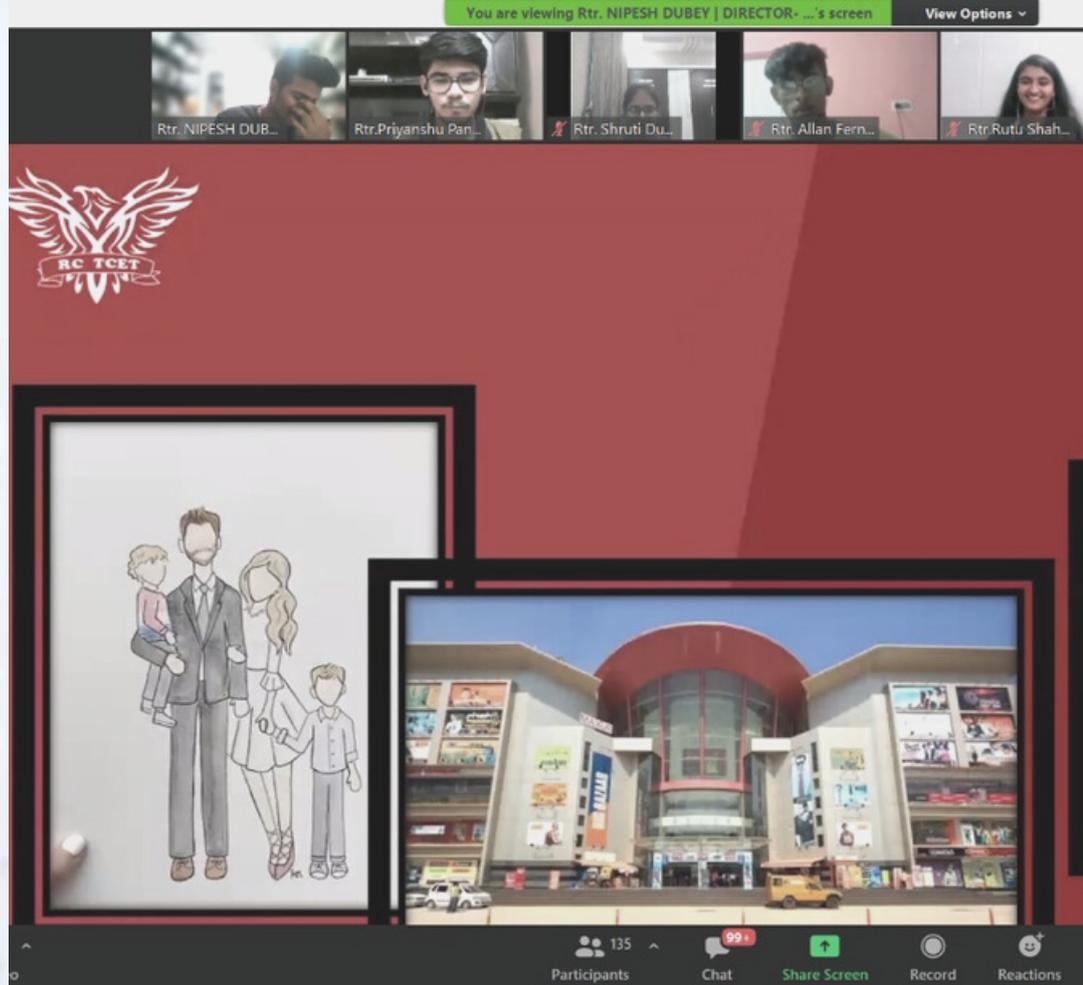

The meeting was called to order by President Rtr. Kunal Miskin at 6:10 pm. This being the first GBM of the club, the ZRRs for the year 2021-22, Rtr. Richa Bhavsar and Rtr. Prince Pandey greeted the members and wished luck to the Core and Board of Directors. The Sergeant-At-Arms, Rtr. Nishank Shetty introduced the rules and regulations which have to be followed by the members of the Rotaract club of TCET. Then, the core committee introduced themselves and cognized members with their roles, followed by the Board of Directors who introduced themselves and briefed the members about their duties.

An icebreaker activity was conducted by the Club service director, Rtr. Nipesh Dubey. Next, the members were informed by Rtr. Shruti Dubey, chairperson HRD, about the various upcoming projects that the club was going to organize. Rtr. Mitali Mandge cognized the members with the various teams within the club i.e. creative team, editorial team, and the P.R & marketing team, followed by Rtr. Muskan Sinha, joint secretary, who introduced everyone with the achiever’s award for best members and best avenue. Finally, the members who have been a part of RC-TCET for the previous years shared their experiences and the meeting was adjourned by Rtr. Kunal Miskin.

The Rotaract Club of TCET’s first general body meeting was truly a thrilling experience. There were so many new faces, new ideas, new aspirations, and above all an overwhelming enthusiasm to achieve even more this year! The response to this GBM gave an assurance that such an enthusiastic response could be expected in the future activities of our club too.

# BONDING ACTIVITY-1

“Teamwork is the ability to work together toward a common vision. The ability to direct individual accomplishments toward organizational objectives. It is the fuel that allows common people to attain uncommon results.”

Bonding in the club is the process of creating a team that is cohesively working together towards a common goal. The importance and main purpose of bonding activities is to create a strong team through forming bonds and connections. This bond is what makes the entire year enjoyable for all members of the club. Creating these bonds through games is very beneficial for any organization. The first bonding activity is very essential for the club as this is the first time the members get to bond with each other and get to know each other.

Bonding Activity 1 was conducted on 3rd July 2021 under Club Service Avenue. The main aim of this activity was to encourage online gaming and increase the bonding of members. The activity was conducted by Club Service and Sports Director, Rtr. Nipesh Dubey.

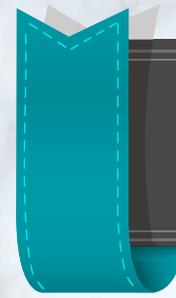

The game had a total of 3 rounds in it. The first round was “Guess the movie name” in which participants had to guess the movie by looking at the image. The second round was “Guess the movie by the song.” As the name suggests, in this round members had to guess the movie by lyrics and guess the song by image. The lyrics were either in English or in different languages compared to the original song’s lyrics and for the image round, emojis and images were used to frame the song name/lyrics by which the members had to answer the name of the movie.

The last round of the game was “Guess the Web series”. In this participants had to guess the webseries by looking at the images. There were around 15 questions in this round. In the end a bonus round was also there where the host translated the actual name of the movie into different languages, said it out loud and the members had to guess the movie.

## Best Responses

"Resources remain  
definite yet the  
stomachs to feed are  
infinite."

# INK THE SHRINK

"Real problem is not population explosion, but what the population is doing."

Today, there are 7.8 billion people in the world, and India ranks second in row, just behind China with 1.38 billion people. Typical projections of population growth predict that Earth will be in a state of human overpopulation by 2050 or sooner. Each person has a genuine right to a sufficient and equitable share of Earth's resources. With our population approaching 8 billion people, even if everyone accepted a low standard of living, the planet would still be pushed to its ecological breaking point. Unfortunately, the 'typical individual' on Earth consumes at a rate that is more than 50% more than what is sustainable.

Hence, on the occasion of World Population Day that is on 11th of July, the very first editorial activity was conducted. Ink the Shrink was a slogan writing competition, organised by the Editorial Service Director of the club, Rtr. Malcolm Cardoza. The activity was launched on 6th of July.

In this activity members were asked to write 2 line slogans or phrases on 'Overpopulation' in any language of their choice. The Rotaract Club of TCET aimed to spread awareness about overpopulation through this activity among our society and members. Riveting write ups were uploaded by our members, and the number of responses were remarkable. There were a total of 45 overwhelming entries for this event.

From all the responses, top 5 slogans were to be selected and posted on the club's social media handles. As planned prior, winners of Ink the Shrink were declared on 11th July, 2021 followed by their slogans posted on our Instagram page. The winners were Rtr. Vandita Gopal, Rtr. Nandini Yadav, Rtr. Tanishq Suryawanshi, Rtr. Ambresh Shukla & Rtr. Shubham Sarvankar.

Overpopulation and overconsumption underlie most of environmental problem we face today. It is our duty as citizens and responsible rotaractors to help in whatever way we can. This activity was one such way of giving back to our community and spreading awareness.

# PROJECT SAHAYTA

Rotaract has always believed that every human has the right to grow up in a clean and safe environment. People who have access to clean water, basic toilets, and excellent hygienic habits not only thrive, but also have a healthier start in life, away from the risk of many diseases. Despite COVID-19 putting the spotlight on the importance of hand hygiene to prevent the spread of disease, many people in our country and worldwide do not have access to a clean toilet let alone a hand washing facility. People living in rural areas, urban slums, disaster-prone areas are the most vulnerable and the most affected because of this issue.

The story of this activity begins when Nazareth Foundation, a local NGO, requested our club for assistance in making septic tanks in the Dharavali village of Madh that would help provide the villagers with cleaner and more hygienic toilets. Our club availed of this golden opportunity to address the cause of access to clean toilets for everyone. Thus our Project Sahayta was conceived as a project aimed to build a toilet septic system that would benefit the local community. But before we could

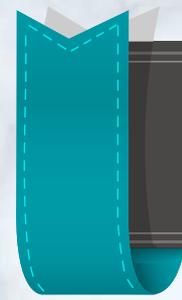

commence, a survey of the community and the condition of the current toilets had to be undertaken. The results of the survey showed that there were next to no arrangements for public toilets in the village. Hence it was decided to initiate the process immediately. The septic tanks for the toilets were built under the AICTE: SPICES Scheme, a scheme aimed to provide financial assistance to institutions which in turn form clubs to ensure developments of students. A local civil contractor was called in to decide the material requirements of the tanks and to finalise the construction process. As soon as the materials were delivered the construction work for the tanks began. This project lasted in total for 6 days i.e. beginning from 4th July. At the end of the 6th day, our club had successfully built 3 septic tanks for toilets for the local community.

Through our project we were able to facilitate almost 100 villagers to their basic rights to clean water and hygienic toilets. Overall this endeavour was a thumping success for our club which resulted in the betterment of a community.

# WORLD POPULATION DAY 11 JULY

# WORLD POPULATION DAY

"The power of the population is indefinitely greater than the power in the earth to produce subsistence for man." - Thomas Malthus.

The pace at which the population is growing is a matter of concern and is one of the biggest issues on this earth for humanity and the environment. It is really important for us to bring more attention to these population woes. It has become even more important during the Covid-19 pandemic as it has deeply affected our health systems.

So, we at RCTCET did our part and tried to create awareness amongst youngsters regarding this matter on the occasion of World population Day celebrated on 11th of July. Our International Service Avenue accomplished this by organizing sex education seminars and conducting a 3 day social media awareness campaign. Through this campaign the club ensured that the young club members understand the significance of World Population Day. The first day was aimed to increase people's knowledge about

various issues like Women Empowerment, Exercising the choices, Quality education for all etc. and how these issues are associated with the population. The Pros and Cons of overpopulation were discussed and covered in the 2nd day of the awareness campaign, various statistics regarding this topic were also used to convey the points to our members. The 3rd day of the campaign was aimed at increasing peoples understanding and changing their perception regarding sex education, and also discuss its importance and how it can help the world in proper family planning which would result in population control. The club also organized various fun activities such as slogan making which helped convey the message of World Population Day.

Through this initiative the club's aim to promote the message of 'A little less makes a lot of difference' was successful.

# UNAGI- SELF DEFENSE WORKSHOP

The one with the Unagi from F.R.I.E.N.D.S gave us all a nice belly laugh! Definitely, the main highlight of this episode was of Ross Geller trying to explain the art of Unagi to the girls despite being a total schmuck at it! The other subtle highlight of this story was a very important concept i.e. self-defense which is very much needed in today's life.

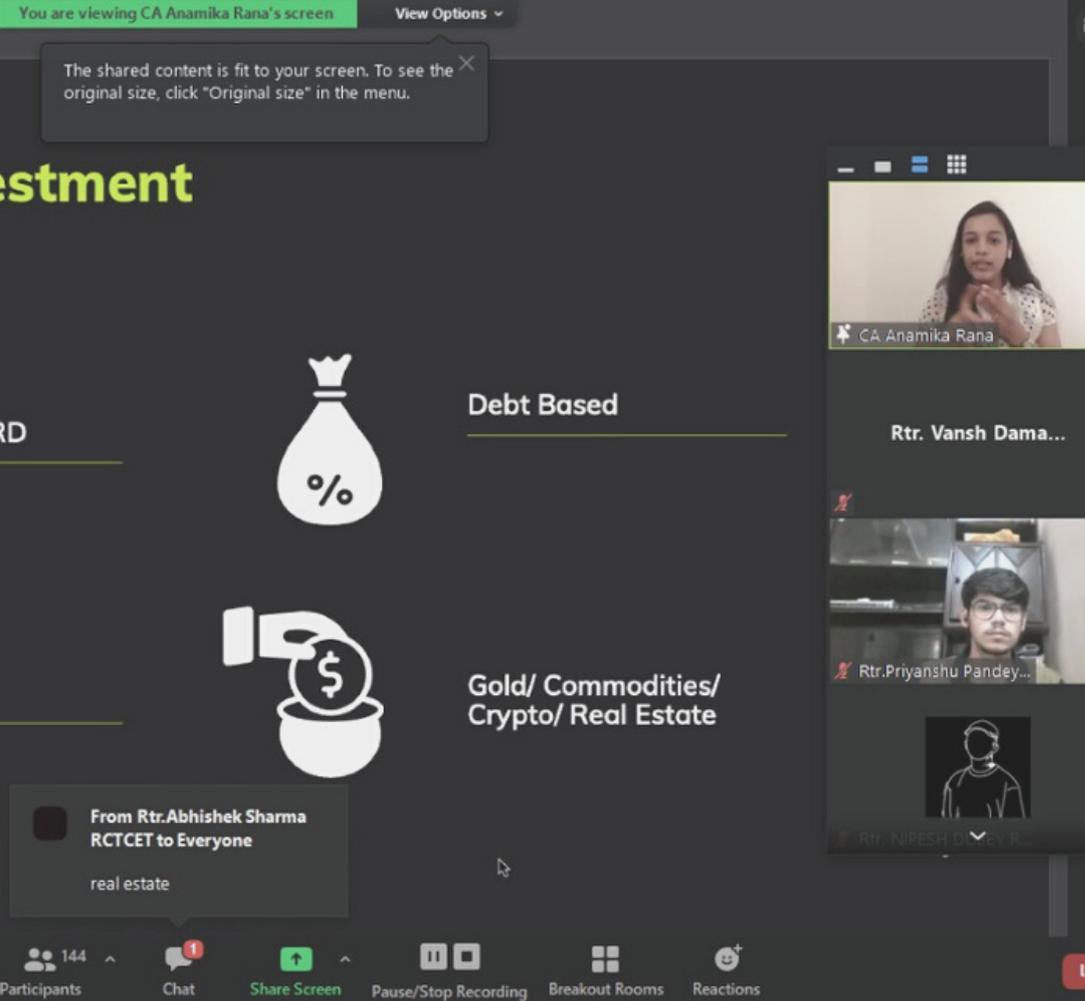

We, at RCTCET, understand why it is critical for everyone to know how to defend and protect themselves in the event of an emergency. Following up on that thought, the club held a self-defense training with Mr. Anil Patil, the President of the Karate Do Association of IJKA National and International Referees. He began the lecture by explaining to our club members what self-defense is, why it is important, and how it benefits them in a variety of ways. He explained that one of the many important benefits of attending self-defense training is how you feel afterwards. Many people are unsure of their ability to defend themselves before joining a practice. Fighting is nearly impossible without balance. You will become more alert of your surroundings after taking self-defense classes.

Karate, like many other martial arts, is built on the foundations of trust and respect. It instils mutual respect as well as self-respect.

Following that, we also learned fundamental karate self-defense methods such as choke against the wall, straight punch defence, knee strike, groin kick, and wrist defence, among others. He demonstrated manoeuvres like side kick to jaw, side kick to heart which may result in the attacker being unable to breathe for several minutes & can also lead to fatality, and knee drop to heart in real time and taught us how to predict the opponents' next moves. He told us that the only way to master these movements is to practise them. Later in the lesson, we talked about how to defend ourselves in various situations.

The session concluded successfully after two hours. The feedback received from the students was extremely positive as this was a much needed lesson, especially for women. On that note, we intend to conduct many such useful seminars even more often for our club members.

# INVEST EARLY, INVEST RIGHT

Investing is allocating money towards assets in the hope of making your future better. Investments are made with the view of earning returns, which grows your amount invested to a higher sum. When it comes to the world of investing, most people don't know where to start. So with an objective to educate youngsters about the various methods of investment, Rotaract Club of Bombay NorthWest Malad in collaboration with Rotaract Club of TCET, Rotaract Club of Bombay West, & Rotaract Club of RJ College came up with a webinar called “Invest Early, Invest Right”.

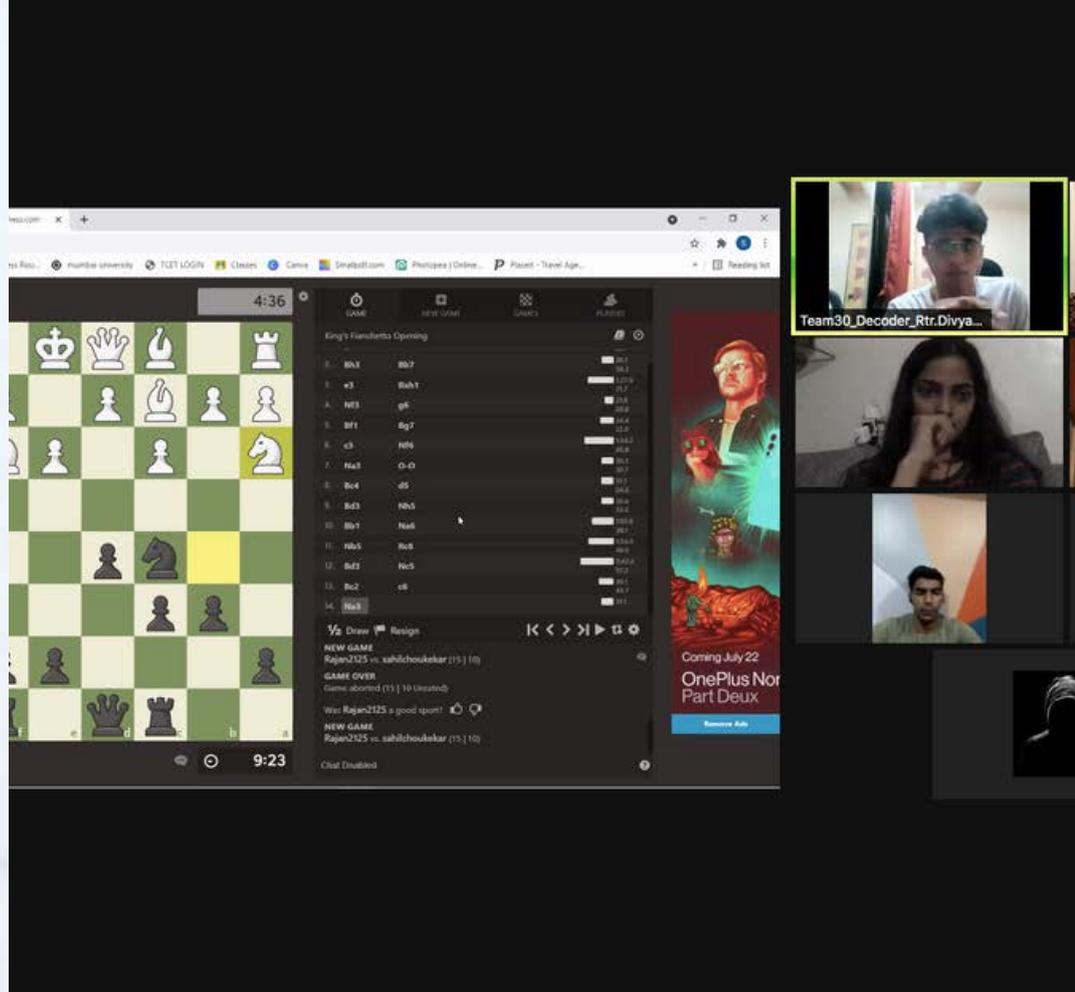

This Activity was conducted under Professional Development Avenue and it started on 24th July 2021 at 2:00 pm. The speaker of the event was Anamika Rana who gave guidance to the participants on when and how to invest. The speaker talked about how essential it is to start investing and focused on the fact that making regular investments forces you to set aside a sum regularly, thereby helping you instil a sense of financial discipline in the long run.

She also discussed different types of investments and drawbacks of each investment method. The speaker also shared her experiences on what investment options are right to choose and how to invest so that we get maximum profit.

The event lasted for 1 hour 15 minutes and the total attendees of the event were 145. Participant count from the Rotaract club of TCET was 113. The Event ended after a question answers round in which the speaker solved all the doubts of the participants. The attendees thoroughly enjoyed the session and understood the importance of investing right and early.

# CHESS CHARADES

Chess is an art which expresses the science of logic

With a view of encouraging people to learn chess and promote their intellectual development, the Rotaract Club of TCET organised an event 'Chess Charades' on the occasion of the International Chess Day. This event was conducted under International Service and Club Service Avenues.

This was a fun mix of Chess with Dumb Charades and the participants had a blast playing the game! The event was conducted in teams of three competing against each other to get to the final round. Each team consisted of a Mind, a Decoder and a Player. The Mind enacted the move without mouthing/speaking, the Decoder was responsible for decoding the enacted move and conveying it to the Player who would make the move on the virtual chess board. All this was to be done within a minute. Such a rush!

The first day for Chess Charades was 20th of July and the semifinals and finals were conducted on 22nd of July. The event began with Rtr. Nipesh Dubey giving the brief of the event and the participants going into their respective breakout room. Then the individual matches started and by the end of the day, the winning teams who would be promoted to the next round were declared.

On the 22nd of July, semifinals followed by finals were played. The winners were given a shoutout on the club's official page.

The feedback received by the participants was positive and many members created a special bond within themselves and also enjoyed the event.

Like somebody rightly said:

"Chess is not always about winning...sometimes it's simply about learning and so is life!"

# GAGS - N - CAPS

There is no doubt that creativity is the most important human resource of all. Without creativity, there would be no progress and would be forever repeating the same patterns.

Now-a-days, social media has been flooded with memes on various topics like politics, sports or the latest controversial news. Memes are one of the easiest ways to convey our opinions on a topic.

With a view of encouraging creativity among the members, the Editorial Avenue of Rotaract Club of TCET conducted a fun-filled activity, GAGS-N-CAPS. The event commenced on 22nd of July 2021. Five meme templates were chosen and given to all the members on a google drive. Participants were supposed to edit the images by adding fun-filled captions in one or more images and the best five of the captioned images were acknowledged on Instagram as the winning entries.

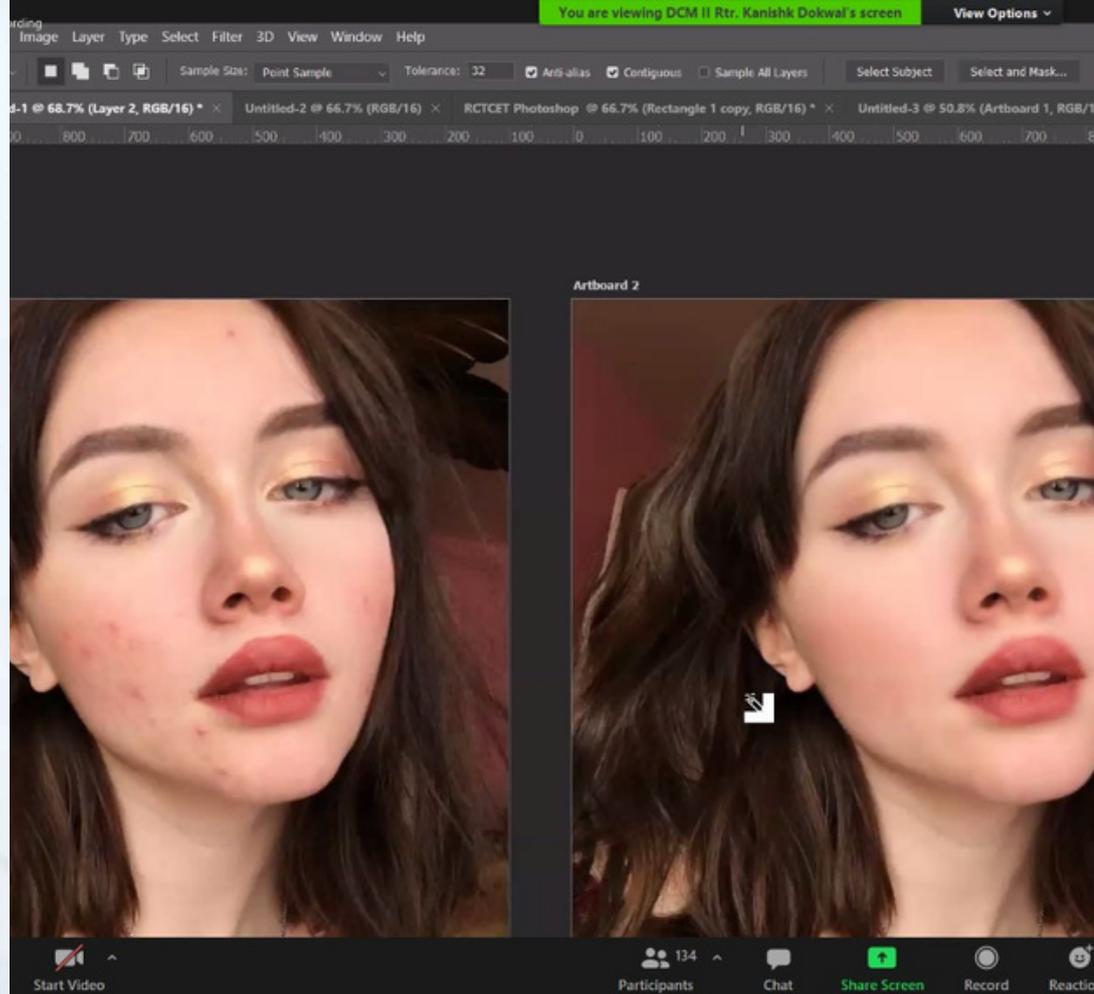

An overwhelming total of 62 entries were received from 35 participants. The event concluded on the note:

Memes are the best way to address the social values of the society through humor.

Overall feedback was positive as the activity was a meme competition and it encouraged the members to showcase their talent. It was a new twist to the usual Editorial activities and this encouraged many members to participate and send in their entries. After all, who doesn't like a few laughs to lift their mood up?

# PHOTOSHOP WORKSHOP

Photoshop is an art and you can do a lot with it... Change the atmosphere through different lighting and make the picture look more interesting.

Nowadays, life revolves around social media posts and everyone wants the perfect picture up on their profile. What better way to do that than use Adobe Photoshop to make your picture aesthetically pleasing? With the view of encouraging people to learn and operate Adobe Photoshop, the Rotaract Club of TCET organised a webinar that gave knowledge of Adobe Photoshop.

The event was conducted on 31st July 2021. Rtr. Kunal Miskin, the President of Rotaract Club of TCET, called the meeting to order. Rtr. Malcolm Cardoza, the host for the event, greeted the speaker, Rtr. Kanishk Dokwal sir.

The speaker started the event by giving the basic introduction of the software and also various hacks to learn it. He also cleared all the doubts of all the club

members. There were quite a few interesting fun tasks that Rtr. Kanishk gave the attendees in order for them to understand the working of the software better. The event was a grand success with over 100 participants.

Finally, Rtr. Janhavi Mishra, the vice president of the club thanked the honourable speaker and the workshop was completed successfully and the meeting was adjourned by the president.

This webinar rightly proved the quote:

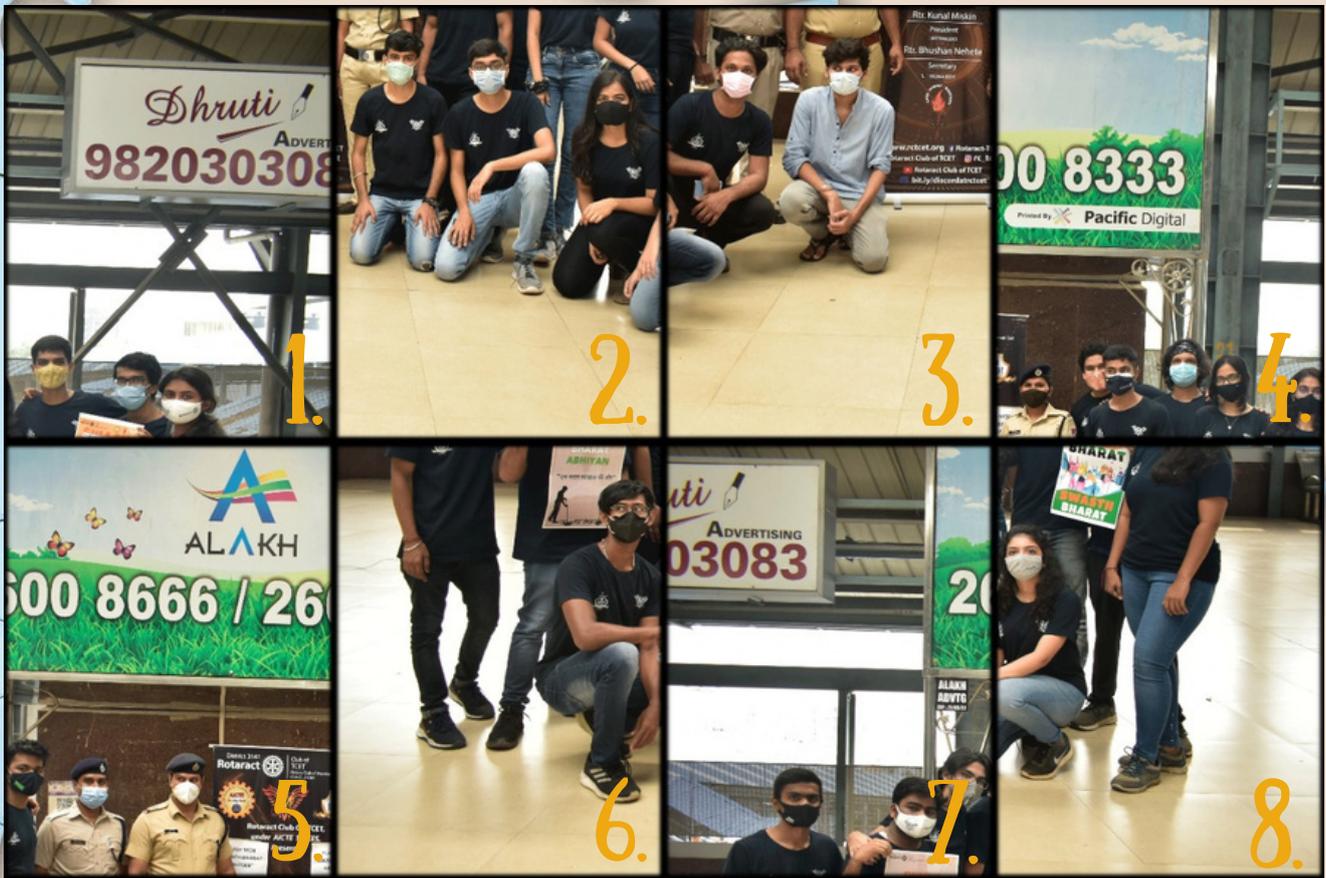

"The only skill that is important in the 21st century is the skill of learning new skills because everything will become obsolete over time".

Thus, this webinar not only taught people to operate Adobe Photoshop, but also the skill of learning new skills. The feedback received was extremely positive and the workshop ended on a happy note.

“ Gaming has been a great way to get to know people. That's part of what I love about games, that they are social.”  
- Rich Sommer

Gamepunk 1.0 was an interactive event to promote gaming spirit, social interaction, and bond formation amongst the club members. The event covered two games, Battleground Mobile India BGMI and Skribble, both popular amongst the members.

With the game selection until the result declaration, the entire journey was a fun-filled ride. The players were free to choose any game in which they were interested. To avoid confusion and conflict due to the time of the game, we had scheduled them on different days. Gamepunk 1.0 commenced on the 2nd of August. Rtr. Nipesh Dubey introduced the game and explained the rules to the players competing against one another. The first game played on the first day was BGMI.

A total of eight teams participated in this game. Each team had four members, and the first round was a classic match. After elimination, four teams reached the semifinals. These four teams played Team Deathmatch in pairs to two. The winning teams from these matches had a conclusive final between them. The final round was also a Team Deathmatch mode game.

The second day of the event was a series of fun rounds of Skribbles. The players were in different breakout rooms. The moderator assigned for each breakout room was responsible for the smooth conduction of each game. There were multiple rounds played to get the final winner. Each round was an elimination round. Players ranking high in the list led to their promotion to the next game. In this manner, the player with the highest score at the end of the event was declared the winner.

Announcement of the winners for both games happened on the official social media handles. Thus the two-days long event ended with happy memories, new friends, and refreshed minds.

# ZAROORAT

Uplift by uplifting others. This project was a great initiative taken by RCTCET to help people who were in distress due to the recent monsoon floods by donating food and daily necessities.

For this to be a success they needed people to support them and help the needy, so they conducted various collection drives. Luckily people were very much eager to help and came voluntarily to donate clothes, food, medical & sanitary items, money, etc. The total things collected were 101 units of soap, 15 units of toothpaste, 13 units of toothbrushes, 24.5 kg Dal, 102.5kg of rice, 46.5kg of Wheat Flour, 31 Full bags of clothes, and 12,000/- cash. The collected items were then distributed to old age homes and Sansthan namely, Radika Old age home, Guru Krupa Sansthan, Vishal Parulekar's Orphan Home.

Our volunteers did a number of visits to those old age homes and Sansthan and distributed all that they had collected. After all this work that our volunteers did they had an internal sense of satisfaction as they gave their sweat and blood for this project by fulfilling the needs of more than 150+ lives in a very critical condition of COVID. There were many happy faces and those were the faces that mattered to them the most. That's the only cause they needed to strive for and also it made them a better person. This in turn helped our Club too, because when the members of our club have a good sense of humanity, it helps the club to do more good for others.

All in all, this project was a huge success as a good number of members participated by donating goods and money. The members also enthusiastically participated in this drive and a bond of friendship and trust was built with all those helpless people with the volunteers and also amongst the volunteers.

# BY-LAWS MEET GBM - 2

Every team needs a Team Building Event that's both Effective and Fun.

To stage the Installation Ceremony 2021, Rotaract Club of TCET organized a General Body Meeting to make the members cognizant about the importance of Installation.

The meeting was conducted on 17th August 2021 on Zoom platform. Our Club President Rtr. Kunal Misikin greeted all the Core 20-21 members by showing warmth and gratitude who marked their presence. Our President acquainted the members with the significance and purpose of the Installation Ceremony.

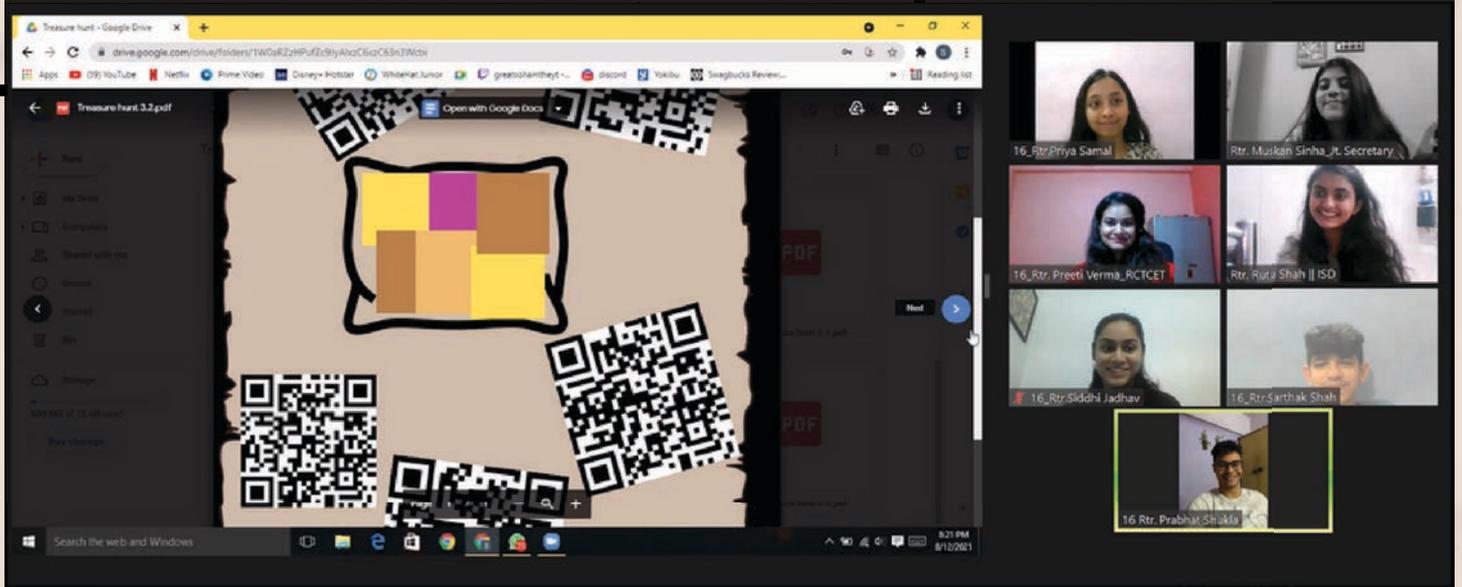

Further, Our club's Immediate Past President Rtr. Prince Pandey gave a detailed overview of the Installation ceremony and he further motivated all the General Body members by explaining to them their responsibility and functionality of the club activities.

Our club's Sergeant-at-Arms 21-22 , Rtr. Nishank Shetty gave necessary instructions about the club and also delineated the rules and regulations to be followed by every member for the smooth operation of our club.

Additionally, the doubts of our members were addressed by our President for collaborative team work and the meeting was successfully conducted.

# BACHPAN KA PYAAR

“Childhood memories are the sweetest memories of the past.”

Indeed one of the most golden times of human life is childhood. In order to revive these memories, a Treasure Hunt activity with the theme of childhood was conducted by the club’s Club Service Avenue.

Teams of seven members each were formed for the game. The members were given exciting and brainstorming questions along with some divine help of hints to make them help find the answers of the Treasure Hunt. A drive containing pdfs of all the questions was shared with the participants. Each pdf was locked, and its password was the answer to the previous question.

Participants were given 2 hours duration for discussing and solving 15 questions and submitting their final responses through a google form provided to them. The team to successfully attempt all fifteen questions in the least time was chosen as the winner of the Treasure Hunt. The winners of the treasure hunt were announced on the club's official instagram handle.

The session turned out to be very fun and interactive. The members were able to get to know each other with this small interactive activity and also helped in generating the skills required to work as a team such as teamwork and coordination. Overall, the event was loved by the members and the OC equally.

# TECHWORLD 2.0

“The engineer has been, and is, a maker of history.”

— James Kip Finch

Following this quote the members of the club of RCTCET had conducted the club’s legacy project, Techworld 2.0, to promote interest in engineering by educating underprivileged children about technology via fun workshops.

The Shiksha directors of the club, Rtr. Yash Lad and Rtr. Shivam Dubey, had visited Little Angels Ashram to conduct the legacy project on 13th August, 2021 and 14th August, 2021. There were around 40 children present at the Ashram and according to their age group, the syllabus was decided earlier, which was the basics of electronics. Volunteers were selected for the project and were trained for almost 2 weeks before the day of the event.

On the day of the event, the event was split into two sessions. In the first session conducted on 13th August, the children were taught the basics and theory of the subject. In the second session conducted on 14th August, the children were shown how to make a toy car using the electronic components kits provided to them.

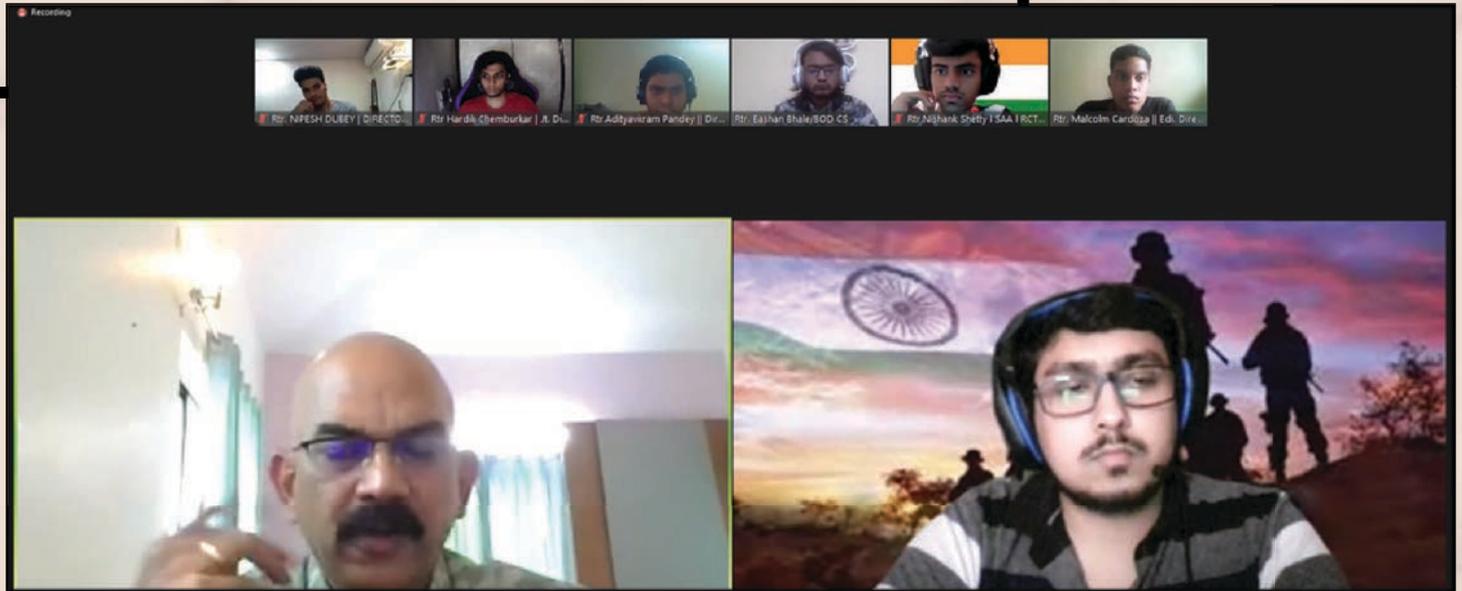

As Nelson Mandela once said, “Education is the most powerful tool to change the world.”

To support the same, awareness about engineering was spread via this activity.

A heart-warming smile could be seen on the shining faces of these kids at the end of the activity, indicating that the event was a great success and was thoroughly enjoyed by the children as well.

# YOUTH TODAY, INDIA TOMORROW

“The more we give importance to skill development, the more competent will be our youth”

Youth is the most important and dynamic segment of the population in any country and what can be better than encouraging our youth, right?

To amplify the collective efforts of our youth and inculcate patriotism for future innovation in our nation, the Community Service Avenue of our club took an initiative to commemorate the believers of youth power under the project named “YOUTH TODAY, INDIA TOMORROW”.

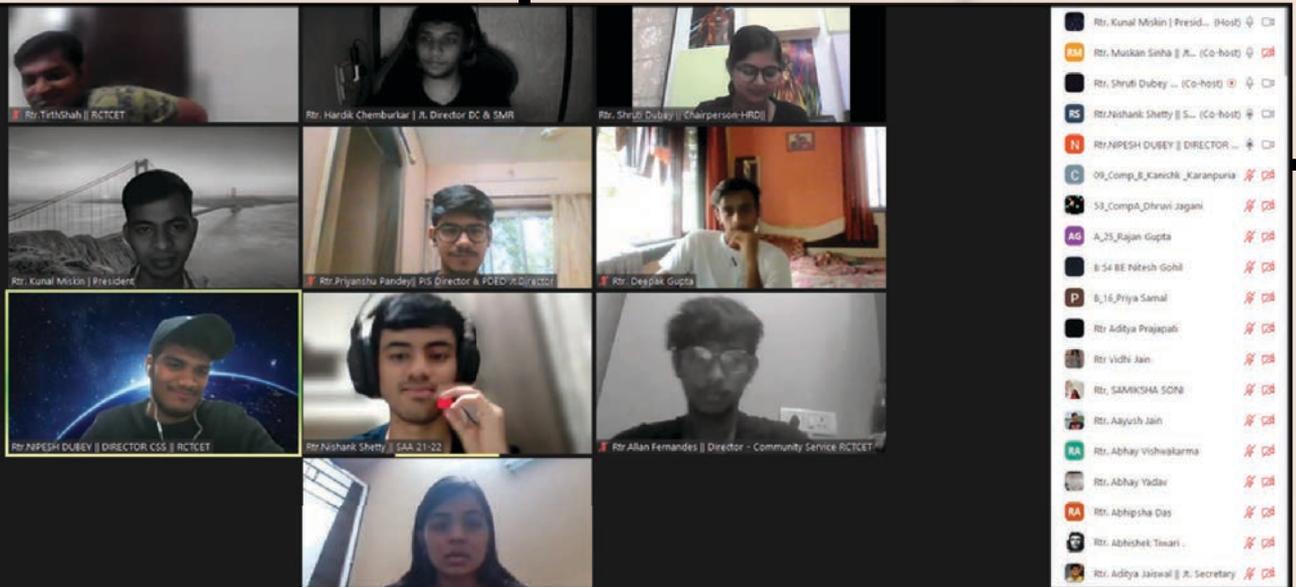

The Event was conducted on 15th August 2021, the occasion of Independence Day on Zoom Platform. After the commencement of the event by our Club’s President Rtr. Kunal Miskin followed by the national anthem, the event progressed.

To make the event memorable, our chief guest Maj. Chandrasen Kulthe gave some useful insights and enlightened all the attendees about the importance of youth and how they would contribute towards the future. His commendable speech encouraged all the members, as everyone patiently listened to what our speaker had to offer from his army experience and he also shared his stories of how he served his country, which was quite inspiring. Our speaker finally concluded his speech by answering all the queries of our members, which made the event quite interactive.

The session was inspiring as everyone appreciated the awareness of how youth can be a solution to the problems faced by our country and as responsible citizens, it’s a duty of each one of us to make our country prosper.

# GBM - 3

“Discipline is the bridge between goals and accomplishment.”

All clubs have a purpose and need rules to guide their club. This is what the club constitution and by-laws are for. It is important to make the by-laws suit your club: the simpler they are made, the smoother running club you may have.

The second General Body Meeting was conducted on 5th August 2021 in order to explain the By-laws of the club to the members. The meeting was called in order by the president, Rtr. Kunal Miskin at 6 pm and the National Anthem was played.

Rtr. Nishank Shetty, the Sergeant-at-Arms, then took over the meeting and explained the by-laws of the club to the members. The by-laws are an important aspect of every club and hence it is the duty of the club to make its members understand the by-laws to maintain the discipline and decorum of the club.

In order for the by-laws to pass, 2/3rd of the majority have to vote for it. To take the votes for the same and make sure that the members have understood the by-laws, a Google form link was passed to the General Body members via which they voted yes or no. More than 2/3rd majority of the members voted ‘yes’ and hence the by-laws were passed successfully.

# BEING HUMAN

Think about the last time you experienced a random act of kindness. It probably puts a smile on your face. While we are busy filling our cup, we overlook a very deserving group who would appreciate a kind gesture.

But the Rotaract Club of TCET never fails to grab the opportunity to bestow our service.

On the occasion of World Humanitarian Day, the International Service Avenue of our club in collaboration with 10 other clubs of our RI districts underwent a project named “Being Human”.

In this activity, participants expressed their gratitude to the residents of an old age home by submitting them handwritten letters. The Rotaractors then visited Radhika Old Age Home on 28th August 2021 to make a small difference and provide compassion by bonding with the senior citizens. The participants who wrote letters recited their work to the residents of the old age home which uplift their spirits by radiating positive energy. Further, the attendees also had lunch with the residents which was followed by a karaoke session, where the elderly people blissfully expressed themselves by dancing and singing together.

The elderly people also spent quality time with our club’s volunteers by sharing their experiences and anecdotes which taught us about adversity, endurance and learning how to handle life’s changes. Their happiness and confident vibes made this event successful and it created an impact on our volunteers too, as they realized the importance of elderly people in our lives.

# INSTALLATION "UDAAN"

With the renewed vigor of "Soaring, Higher than Infinity" this Rotaract year, we had our 5th Installation Ceremony, named, UDAAN.

It marked the 5 years of success and hard work that we did for our college students and also for our society. These five years have really been fun and amazingly full of thrill and excitement of the events and that constant adrenaline rush through our veins.

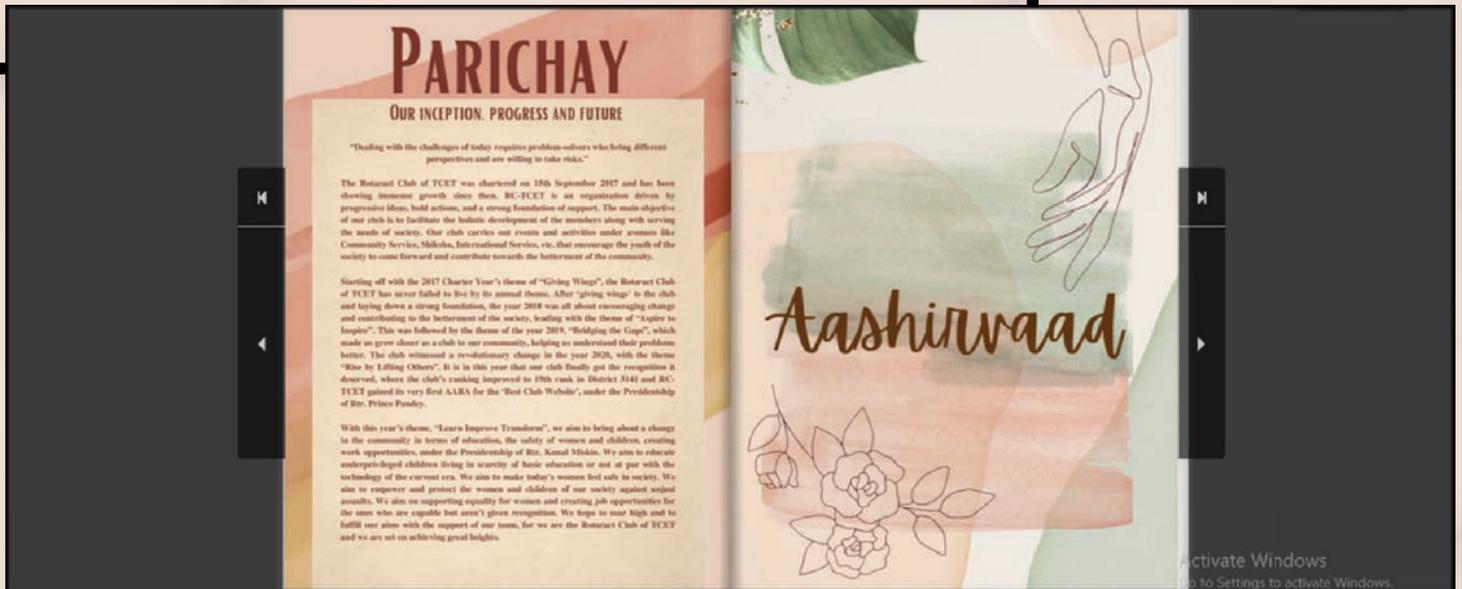

The main events were, firstly Announcement of the release of 2nd edition of the magazine, Valerie, secondly, there was a prize distribution ceremony held to give out prizes to the best member and best Board of directors, who were felicitated by the guests. Further, Rtr Shubham Gawade (Secretary 20-21) and Rtr. Abhishek Mishra (SAA 20-21) were given farewell gifts from RCTCET and also were asked to share the wonderful journey they had in RCTCET.

Later, Rtr Prince Pandey delivered his outgoing speech and was felicitated by our honorable guests, he also introduced the incoming president of RCTCET Rtr. Kunal Miskin and passed on the legacy of presidentship to him with the trust that he and his team would take RCTCET to another year of resounding success. Thus, this year's Installation Ceremony of the Rotaract Club of Thakur College of Engineering & Technology, was truly an inspiring gathering which laid the foundations for many more achievements to be added to our collar this year as well!

# BULLETIN "PARICHAY"

[CLICK HERE](#)

“Other things may change us, but we start and end with family.”

The club’s first bulletin for this year, Parichay, was launched on 21st August, 2021 on the day of the club’s installation, Udaan.

The idea for the 5th installation bulletin was to showcase the versatility of the Indian joint family and how the Rotaract Club of TCET is made up of different people having different responsibilities but sharing a loving bond, just like an Indian joint family. After considering the aspects of an Indian joint family with all its quirky characteristics and virtues, we found great joy to see a striking resemblance of these features in our own club too.

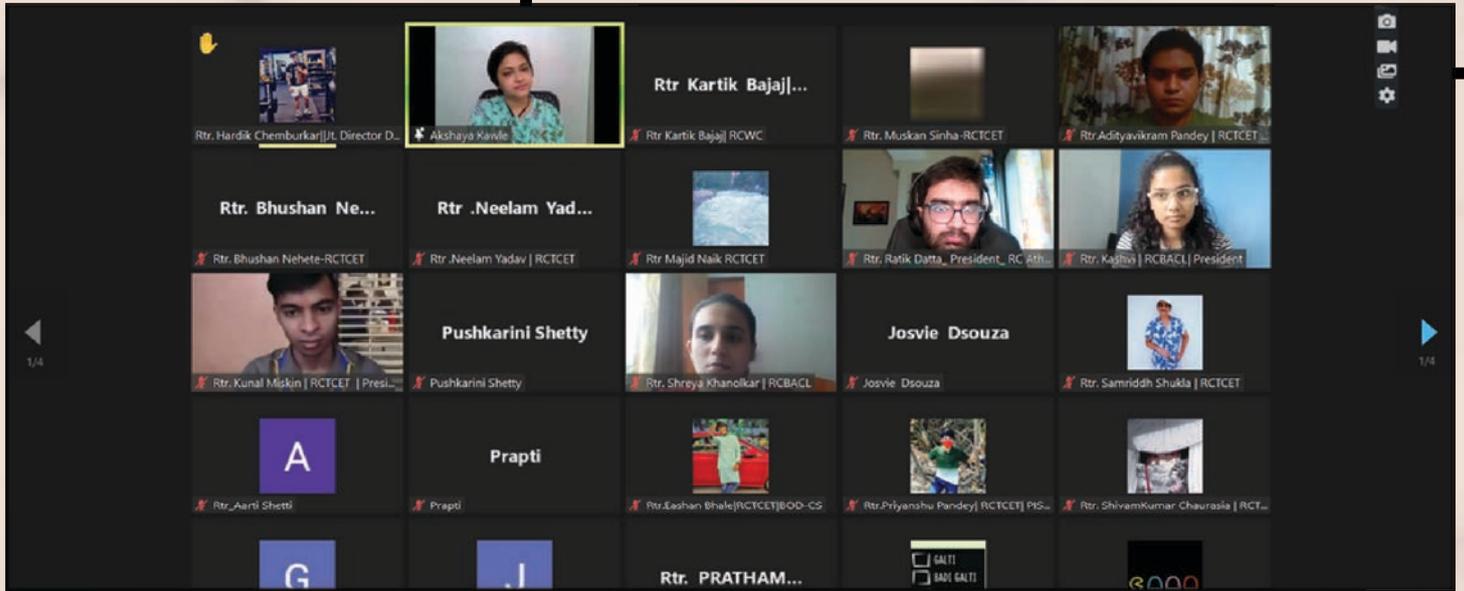

The name of the bulletin was decided as ‘Parichay’ as it is an introduction to the new team and faces of the club. The bulletin had content that gave information about the Rotaract club of TCET and about the people who adhere to this club. Information of all the dignitaries and the Core BoD team for the year 2021-22 was mentioned in the bulletin.

The printed hardcopy was brought to the venue of the installation ceremony and released by the chief guest, PHF DRR Rtr. Bharat Patel, guest of honour Rtn. Rajesh Chaurasiya along with the president of the club, Rtr. Kunal Miskin and Chairperson Publication of the club, Rtr. Mitali Mandge.

The bulletin received extremely positive feedback from everyone for its innovative idea, content and design. Kudos to the whole team!

# ROTARACT ACADEMY 1

“Some beings just fill your heart without trying.”

On 22th August, 2021 RCTCET had conducted a Rotary Academy session in collaboration with the Rotaract club of ABACL. The topic of the session was a very interesting and unique one: Learn communicating with animals.

The session was truly eye-opening and had a great impact on the participants in the session. The concept of telepathically communicating with animals was simplified and the logic and reason behind the same was discussed. All we have to do is connect from the heart and mind and listen and dive into the innate language of all species.

Mrs. Akshaya Kawle, who was the speaker for the event, is a brilliant Animal Communicator and helped us learn the basics of communicating with animals. Communicating with animals is bound to bring a change within the attendees of the seminar because animals are very sentient beings. Just like us humans, they crave affection and want to be understood.

Many attendees shared their lovely memories about animals, be it their pets or strays whom they adored. It was heart-warming to hear so many beautiful experiences.

After clearing doubts of attendees, Mrs. Akshaya Kawle ma'am thanked all the attendees for their patient listening and also congratulated the team of RCTCET and RC ABACL for successful completion of this webinar.

# BLOOD DONATION CAMP

"Nobody can do everything, but everyone can do something-BLOOD DONATION"

Blood donation is a major service to society, as donated blood is lifesaving for individuals who need it. Blood is scarce. There is a shortage of active blood donors to meet the need for increased blood demand. Blood donation as a therapeutic exercise.

Good knowledge about blood donation practices is not transforming in donating blood. Interactive awareness on blood donation should be organized to create awareness and opportunities for blood donation. Blood donation could be therefore recommended that voluntary blood donations as often as possible may be therapeutically beneficial to the donors in terms of thrombotic complications and efficient blood flow mechanisms. This is also a plus for blood donation campaigns.

Blood Donation camp was an initiative by Parent Rotary Club that is Rotary Club of Mumbai Borivali East along with Rotaract club of Mumbai Marvels RCTCET coordinated with the Parent Rotary club and arranged one blood donation drive..The arrangements of Blood bank were done by coordinating with the Community Service team. Location and Date for the drive were finalized as Shri Gurunanak Darbar, Borivali on 29th August 2021. On the day of activity the RCTCET team helped the blood bank arrange for the setup, logistics, and Snacks. There were 56 bottles of blood collected from the donors There were total of bottles of blood collected through the drive. Many misconceptions related to blood donation were cleared by the volunteer of RCTCET while the PR of the activity. An overwhelming response of 27 Volunteers was received for this camp. These volunteers were the members of RCTCET club and also some come residents of the area participated in the Blood donation Camp . The donors were also given some refreshments after the donation to avoid weakness and other symptoms which are very common after donation. Feelings of thankfulness for our Doctors were also inculcated in the hearts of the donors in the current Covid time. The feedback recieved by members and donors is positive.

# ABHINAV

A child is a future of the nation. Good seeds we sow today will yield superior results tomorrow. Let's look forward to eradicating various education problems of underprivileged child and brings a revolution in the Era of Children's Education & Welfare. Education for underprivileged children.

The members of Rotaract Club of TCET's came up with Abhinav Project to teach school-level kids basic maths and general knowledge for a month. Abhinav was a month-long Shiksha initiative by the Shiksha team of RCTCET. For this activity RCTCET collaborated with Snehasadan Asharam.

The commencement of this activity took place from 29th August 2021. There was a total of 4 sessions in the month of September conducted with the students living in Snehasadan ashram on the Zoom platform. The students were divided into two batches, one from class 1 to 5 and the other from class 5 to 10, consisting of 5 students in each group. Two instructors and one moderator were allotted for each group. G.K. was taught to students of classes 1 to 5 and Vedic Maths was taught to students in classes 6 and above. Along with the studies, some fun activities were also done with those students, so that they don't feel bored and also enjoy these sessions.

The last and final session of Abhinav was conducted on 26th September 2021. Many times students are not able to understand a few topics or are not able to clear a few concepts in their school and due to financial issues, joining extra tuition is also not feasible for a few of them. This makes them weak in their initial stage, to avoid these consequences, Project Abhinav was planned. Proper knowledge of Maths and General Knowledge was given to all those students of Snehasadan from the volunteers of RCTCET. Students cleared out all their doubts and also learned easy ways to memorize difficult formulae of Maths. They experienced a very good session of studies along with fun and gaming activities. All the students enjoyed these sessions a lot. They made a very good bond with all the RCTCET volunteers. They all were eagerly waiting every Sunday for the sessions to get started. Whatever Assignment or task was given to them by the Instructors, they use to do it obediently and also ask doubts regarding it in the very next session.

# MASK DONATION

“The value of life is not in its duration, but in its donation. You are not important because of how long you live, you are important because of how effective you live.” - Myles Munroe

The Covid-19 crisis in India was almost incomprehensible in scale in the initial stages. According to official records, about 4,000 deaths were recorded every day at the peak of the pandemic’s second wave. Hospitals were overwhelmed, meaning that many people were dying who could have been saved. On social media, people in India & around the world shared their desperate struggles to find hospital beds and oxygen. Many of them had asked for help — and many people were looking for ways to help.

The challenge, as always in these situations, is to ensure that your donation does have an impact at the ground level. So to promote our club’s presence and to donate masks to needy people, Rotaract Club of TCET came up with a MASK DONATION DRIVE .

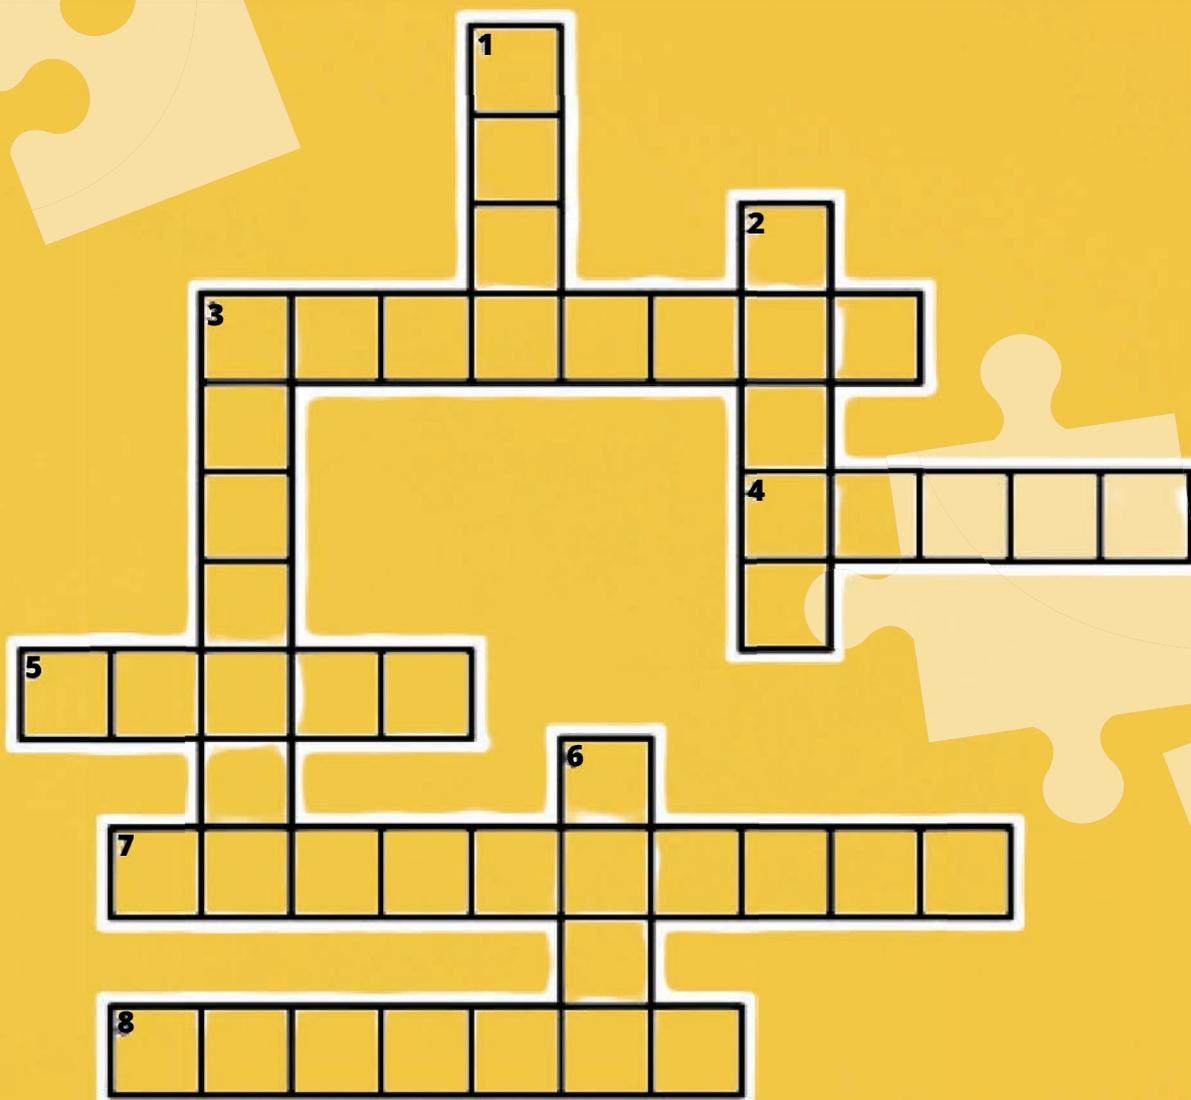

The idea originated as in reality impoverished people who can't even afford to buy good food for themselves, often find themselves in a precarious position while spending their hard earned money to buy good masks. In this case , they cover their face either with a handkerchief or some old dirty cloth, which doesn’t always protect them. Thus , RCTCET decided to choose a specific area and distribute masks to all the needy people over there.

The locality near SVPV school at Mira road (east) was chosen for mask distribution. There were a total of 10 people and none of them had proper masks to wear. RCTCET sponsored masks were distributed to all of them . The masks distributed had the logo of RCTCET. Rtr. Jay Agrawal, our PR & Marketing Director, also informed them about the importance of wearing masks and about different problems which may occur if they do not follow the COVID norms. Through this initiative, these people were able to live and move around peacefully without risking their lives in mortal danger. Rtr. Jay Agrawal was overwhelmed with happiness and satisfaction, after seeing their happy faces. So, in this manner this activity achieved its purpose of spreading awareness, welfare and compassion in our society through a simple task of donating masks to people in need!!

# Cross-Across

A fun crossword to tease your brains!

## Across -

- 3) If Friendship = Dostana, then Childhood = .....
- 4) It is the greatest meeting of all time for all our members, and we have come to its 2nd stage of conduction! Can you guess this awesome bonding activity of our Club?
- 5) Our 'ascent' to greatness!! This was our theme for the Installation Event as well!
- 7) The noun form of 'to aspire', and it is also something that our Club has a lot of!
- 8) One of the fun activities we conducted as part of our Abhinav Project. It involves a mic and prompter! Can you guess it?

## Down -

- 1) The world of technology & education, can you guess this awesome Flagship Shiksha activity of our club named, ---- W O R L D !?
- 2) A freshwater eel & also a state of mind of total awareness. Can you guess the name of one of our awesome workshops!?
- 3) The sacred laws that we as a Rotaract Club stand by at all times.
- 6) "Do gaj ki doori, ---- hai jaroori!" Can you guess the answer?

Answers:  
Across: 3. Bachpana, 4. GBM-2, 5. Udaan, 7. Aspiration, 8. Karaoke.  
Down: 1. Tech, 2. Unagi, 3. By-Laws, 6. Mask.

# •HELLO• September

# MY HUMAN CATALYST 2.0

“A mentor is someone who sees more talent and ability within you, than you see in yourself, and helps bring it out of you” - Bob Proctor

We need someone in our life to guide, mentor, motivate and share whatever comes to our minds. My Human Catalyst 2.0 gave a chance to everyone to express their gratitude to their special mentors & motivators and let them know how much their unassuming yet unfaltering existence means to us. These feelings were expressed in the form of poems as well as in the form of

open letters written by our dear members for their awesome Human Catalysts!. The commencement of this event took place on 2nd September, 2021 and ended on 5th September, 2021.

A google form was circulated among our members and they were given a chance to write about their human catalysts, whom they wished to express their feelings and extend their gratitude towards. An option for uploading photographs of their human catalysts was also provided. After receiving all the responses, they were edited onto the templates prepared by our Digital Communication Directors. Then they were uploaded on our Club's Instagram stories. The best three notes even got a chance to be featured on the main feed of RCTCET.

We received a truly impressive amount of responses from our members which made this activity one of the most liked activities by our members for this year! We also received very encouraging feedback from our members for this activity!

# AURELIUM OPEN MIC

“A talented orator can convert simple poetry into a war cry for justice and peace in the world.”

So to give a platform to all the budding orators in the Rotaract District, RCTCET came up with an Inter Rotaract Club level Open Mic Elocution Competition named Aurelium held on 5th September 2021. Aurelium Open Mic Elocution Event was an Editorial initiative by Rotaract Club Of TCET along with co-host clubs of RC Medicrew, RC Mumbai Anchors, RC of Sophia College for Women, RC of Lala Lajpatrai College, RC Mumbai Western Elite, RC of Ramniranjan Jhunjhunwala College, RC of Mulund Hills and RC of Deviprasad Goenka Management College of Media Studies.

The event was an Inter-Rotaract Club level Open Mic Elocution Competition in which participants were asked to recite a poem with no language barrier. We had a massive turnout of more than 30 participants for this event, which was truly encouraging for us! The judge for this event was our esteemed District Editor of RID 3141, Rtr. Mahek Sota.

Each one of the participants recited truly thought-provoking and alluring poems and shayaris, making this event a grand success. Rtr Mahek Sota was genuinely fascinated and appreciated each and every participant for their great work and amazing oratorical performances.

The top three winners were revealed via an Instagram story & a subsequent post on our Instagram account. The winners also received Appreciation and participation certificates for the other participants! Thus, this activity achieved its purpose in totality, of spreading social awareness and motivating people towards public speaking, making it a benchmark for future activities to come from our Club!

# PAWS FOR THE CAUSE

“Every dog must have his day.” So we ROTARACTORS OF RCTCET decided to help those innocent helpless creatures by conducting ‘PAWS FOR THE CAUSE’ drive. In this drive, the members cleaned , feeded food & collared the stray animals in their respective localities . The cleaning event was held on 4th September 2021, in collaboration with Cheersforever NGO. All the volunteers of RCTCET and the NGO reached the venue at 2PM. The medical team provided treatment to the dogs who were ill or injured .Maintaining cleanliness is the essential part of healthy living for anyone not only for humans but also for these animals who cannot express their feelings in words . These dogs were rescued from the illnesses which could have been caused to them due to unhealthy and dirty surroundings.

In the feeding program, our Community Service Directors gave all the interested members a week-long program of feeding the stray pets near their vicinity. The DO’S and DON’TS with respect to this drive were provided to the volunteering members & the event was held between 6th to 12th September 2021. The volunteers were also asked to take photographs so that their service could be properly documented. Thus, this event invoked love for animals among our members, and they thoroughly enjoyed it!

Collaring was another exciting event that was part of the ‘Paws for the Cause’ Drive. It was held on 10th of October, near Liberty Garden, Malad West. Volunteers collared 37 dogs with reflective collars for their safety from vehicles at night and also for their identification. Thus, we had a great time being in service of these Paw-some Best Friends of Humans!!

# ROTARACT TALKS

In today's hectic & competitive world, everyone is indulged in a kind of rat race with each other. This has severely impacted the mental health of many individuals and has also given rise to an increased number of occurrences of psychological problems in our society. Most people have forgotten or have paid less attention towards their mental health and self-discipline because of their current lifestyle. Now it is absolutely a no-brainer that both of these aspects are crucial to balance in one's life.

Keeping this in mind, RCTCET organized 'Rotaract Talks', a webinar event, on the topic of 'Mental Resilience' on 5th September, 2021. The speaker for the event was Cdr. Vijay Pratap Singh Sir along with Rtn. Ramesh Chandra sir. In the beginning, he gave a brief introduction about mental resilience and self-discipline. Further, he also gave detailed information about the various aspects of mental health via his elaborate presentation.

He shared his personal experiences from his time in the army as a veteran

of the armed forces, which made this session a truly inspiring event through which our members could relate with him and also ask solutions to their various problems. This ensured that this session remained extremely interactive & also encouraged our members to pay more attention to their mental health and exercise Mental Resilience in their lives.

He shared his personal experiences from his time in the army as a veteran of the armed forces, which made this session a truly inspiring event through which our members could relate with him and also ask solutions to their various problems.

# WORLD LITERACY DAY

“The function of education is to teach one to think critically. Intelligence plus character- that is the goal of true education.” -Martin Luther King Jr.

Since 1967, International Literacy Day (ILD) celebrations have taken place annually to remind the public of the importance of literacy as a matter of dignity and human rights. Despite progress, literacy challenges persist, with at least 773 million young people and adults lacking basic literacy skills today. Even in times of global crisis, we made efforts to find alternative ways to ensure the continuity of learning, including distance learning, often with in-person learning.

Access to literacy learning opportunities, however, has not been evenly distributed. The rapid shift to distance learning also highlighted the persistent digital divide in connectivity, infrastructure, and the ability to engage with technology.

The event hosted by the Rotaract Club of TCET on World Literacy Day was a striving effort to make people aware of the importance of education. The team of youngsters set out towards Vanicha Pada, Goregaon. Upon their interaction with the children of that area, they understood their level of education and interests. They proceeded with the pictorial presentation to make the children aware of the importance of studying. The volunteers then continued by narrating beautiful, immersive stories about the leaders of India.

Listening to these stories and the propositions of the volunteers, they started building their dreams. The volunteers talked with the children about their dreams and aspirations. Later, at the end of the activity, they played a small game with the children and left them with hope for tomorrow and enthusiasm for today.

# RCTCET GANESHUTSAV

वक्रतुण्ड महाकाय सूर्यकोटि समप्रभ ।  
निर्विघ्नं कुरु मे देव सर्वकार्येषु सर्वदा ॥

One of the most loved Hindu Gods, Lord Ganesha, is the God of wisdom, prosperity and good fortune. So, we celebrate the auspicious occasion of his birth on Earth with great enthusiasm by his devotee's. The festival is called Ganesh Chaturthi, celebrated in the month of Bhadra according to the Hindu calendar, which generally falls in August or September every year. During Ganesh Chaturthi, many devotees bring home Lord Ganesha's clay idol, decorate the house, sing devotional songs and pray wholeheartedly. They offer him sweets and flowers, especially his favourite modaks and red hibiscus. It is a joyous occasion for friends and family to get together and visit large pandals. The celebrations continue for ten days, starting from getting Lord Ganesha to your home and concluding on Anant Charudashi when Ganesha's idol is submerged in a nearby waterbody, hoping that Ganesha will come again next year.

Multiple activities in the span of 10 days were held to share the festive joy of Ganesh Chaturthi. These activities

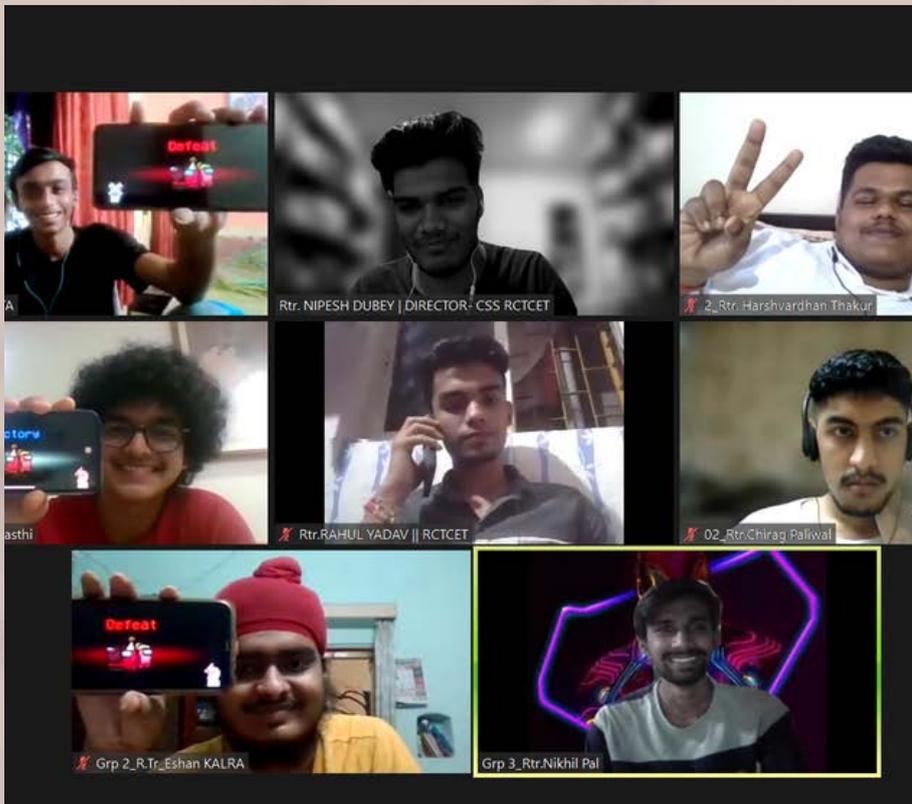

were mandap decoration, essay writing, and sketchings/drawings related to Lord Ganesha. Active participation of the members was seen in these activities, despite the busy days of the celebration. The entries were collected using google forms. Winners were chosen by selecting three of the best amongst all the entries in each category. These were then displayed and appreciated on the official Instagram handle of RCTCET.

And by the end of the event, we all had the blessings of Lord Ganesha, the creativity of the members, and the happiness of the celebration in our hearts.

# GAME PUNK 2.0

In this COVID era, digital & online platforms were given more importance as it was the only way available to us to communicate freely with one another. Keeping this in mind our Club, RCTCET also organized a gaming event named Gamepunk-2.0 which was a huge success. As everyone was bored and tired of online classes and assignments so to make them feel refreshed this event was organized. It was a club-level event conducted on online platforms such as Zoom and gaming platforms. The games that were played in this event were Ludo king, COD, Among Us.

To register participants a google form was circulated and participants were asked to enroll by filling that form. It was a two-day event as the

were asked to enroll by filling that form. It was a two-day event as the number of games and also the number of participants was huge so on the first day the game Ludo was conducted with the help of the Ludo king app. It was a Multiple-round game the people who qualified were moved to the next round and in the end, the winners were declared. The next day Among Us and COD were played.

Every game was conducted very systematically and were bound by strictly enforced rules. The main motive of conducting this event was to increase the bonding amongst our fellow members as due to the present COVID pandemic, most of our members had become quite disconnected from each other. So by this event they came together, they met each other and they were allowed to talk and chit chat in the breakout rooms so that they would be able to interact better.

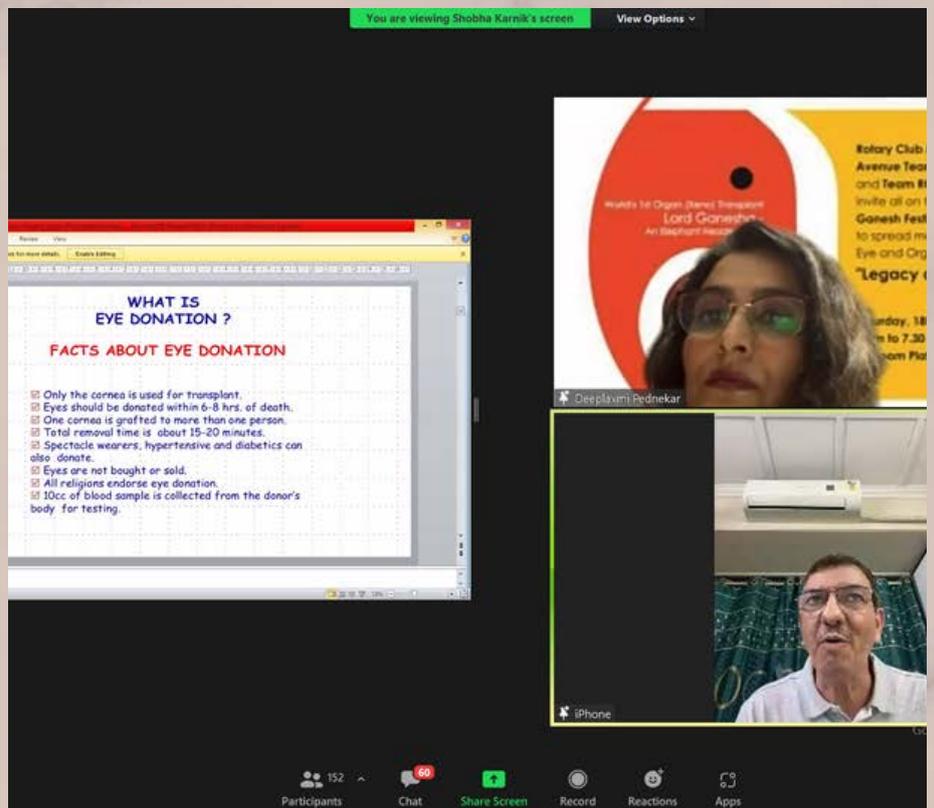

Thus, the main motive of this event was achieved as this event was filled with lots of laughter, smiles, some casual fooling around, and most importantly the feeling of bonding was achieved.

# LEGACY OF LIFE

Every year, 2 lakh people need a kidney for transplant, out of which, only 12 thousand people get it in time. Similarly, more than 50 thousand people need a liver, out of which only 4 thousand people get it in time. Many people die due to non availability of organs for transplant, so it is very important to bring awareness among people about organ donation.

Keeping this in mind , an initiative was undertaken by our club, the Rotaract Club of TCET along with Rotary club of Mumbai Juhu and various other Rotary and Rotaract clubs to uphold our contribution towards spreading awareness about Organ and Skin Donation. Representatives from several NGOs, government and private hospitals, officials from Skin Donation Awareness in India (ROSDAC) and experts among other stakeholders participated in the seminar. India ranks second in the world in terms of organ transplant but there is a scope for improvement in this regard. A lot more needs to be done to educate the masses about organ donation.

Rtn Dr Sunil Keswani gave a short speech , motivating all the attendees about organ donation. He said, “The most important thing in organ donation is to maximize the psychological status and well-being of the donors before and after transplantation has become the foremost goal of all transplantation centres.”He also shared the procedure and various rules and regulations to be followed for Organ Donation. There were also a few proud organ donors present in the seminar, who expressed their heartfelt gratitude after the donation.

# GIVE HER WINGS

“ Never half of the world shed blood of birth, Still you are not known to it? SO STRANGE!” #periodpositive

A rarely talked about topic in our society, i.e. menstrual hygiene. The Community Service Directors of RCTCET along with the King Foundation NGO and under AICTE SPICES scheme, took an initiative to donate sanitary pads to rural and tribal women by conducting the ‘GIVE HER WINGS’ Drive.

This event was conducted on 26th September, 2021 in a small pada(tribal village) of Aarey Forest, Goregaon. We also had an esteemed gynecologist accompanying us, Dr. Sidra Khot who was invited by us to conduct an awareness and tutorial seminar for this event, along with 10 more female volunteers.

The gynecologist explained the importance of menstrual hygiene in that village, following which women in that village were divided into groups, each consisting of 4-5 women. After which female volunteers took a quick survey with regards to menstrual hygiene. Then Dr. Sidra addressed all their doubts and gave a clear idea about Menstrual Cycles and also explained the importance of hygiene.

A whopping amount of 200 packets of sanitary pads (each consisting of 6 pads) were donated to the women in the village. The NGO volunteers also spoke a few words in appreciation for the Sanitary Pad Donation drive. This was followed by our President sharing his immense gratitude to all who had volunteered, and devoted their time for this Noble activity. He also expressed his gratitude to Dr. Sidra Khot for removing time for this activity and sharing her invaluable knowledge with all the women gathered there. Truly, Menstrual Hygiene plays a very vital role in any woman’s life, and we as a responsible society must set aside the stigmas, superstitions and restrictions attached with it and create worthy awareness about its importance!

# MAGAZINE: INDIA UNMAPPED

“Unexplored paths lead to Undiscovered Treasures”

Our Country, India, has an abundance of serene and unexplored places worthy of tourism, that do not get their deserved attention among the general masses. So, with an aim to shed more light on these picturesque sites of natural as well as man-made beauty, Our Club’s Editorial team decided to curate a magazine on this very topic named as, ‘India, Unmapped’. It was released on 26th September, 2021 and a digital copy of it was also published on the same day.

This magazine featured a travelogue theme centred around visiting various unexplored, awe-inspiring places in our country as part of a relishing journey! We included many articles on various beautiful places in our country, as we metaphorically travelled through each region of India. The Editorial Team, under the keen eye of our Club Editor, Rtr Malcolm Cardoza, contributed greatly by coming up with the literary content for the articles, which was later carefully edited by Rtr. Malcolm along with Rtr. Mitali, leaving no room for any kind of errors in the final draft.

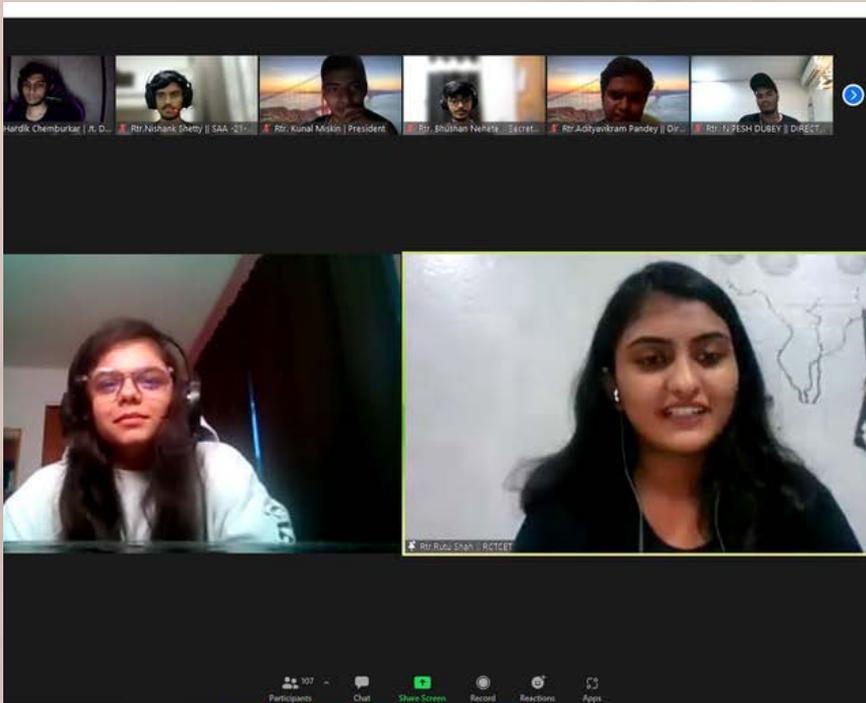

The Creative Team also provided praiseworthy contributions to the creation of this magazine, as they came up with many innovative ideas for the magazine templates & themes as well as helped in giving final touches to the articles using various Editing Softwares like Adobe Photoshop & Canva. The completion of our magazine in time was also a big challenge for us which was positively overcome due to the persistent dedication and efforts of our entire Magazine Publication Team under the skillful leadership of Rtr. Mitali Mandge.

Thus, we were able to successfully publish an extremely attractive, interesting and informative magazine for our members, which set up a benchmark for social awareness through Publication projects like our magazine ‘India, Unmapped’.

# LAKSHYA HUMARA

Miss Anisha shared all the memories, some bad, some good, more enlightening, with the attendees. The struggle she and her teammates faced to bring this social body into existence. Running from this room to that room, from this faculty member to the other. She also apprised the participants about leadership, how one can pursue it by believing in oneself.

This session was extremely motivating. The general body members got to know about the history of the club and all the difficulties faced during the charter days. Everyone enjoyed the session by keeping it interactive, informative and motivating. More to go, RCTECT!

“Take the first step in faith. You don’t have to see the whole staircase, just take the first step.”

The graph of success is never a straight line, it’s exponential. The more hard work the more you shine! It’s not easy to get a bunch of people and make them believe what you are aiming for. This is what leadership is, the capacity to translate the vision into reality.

Leaders don’t create followers, they create more leaders. Starting with 90 members and now having more than 200 members in the club, RCTCET has come a long way. To celebrate this success, on RCTCET’s Charter Day, an event named ‘Lakshya Humara’ was organized by Professional Development Avenue on 15th September 2021 on the zoom platform. The guest speaker for the day was none other than the Charter President of the club, Miss Anisha Pandya. Rtr. Kunal Miskin, the current president called the meeting to order followed by the national anthem.

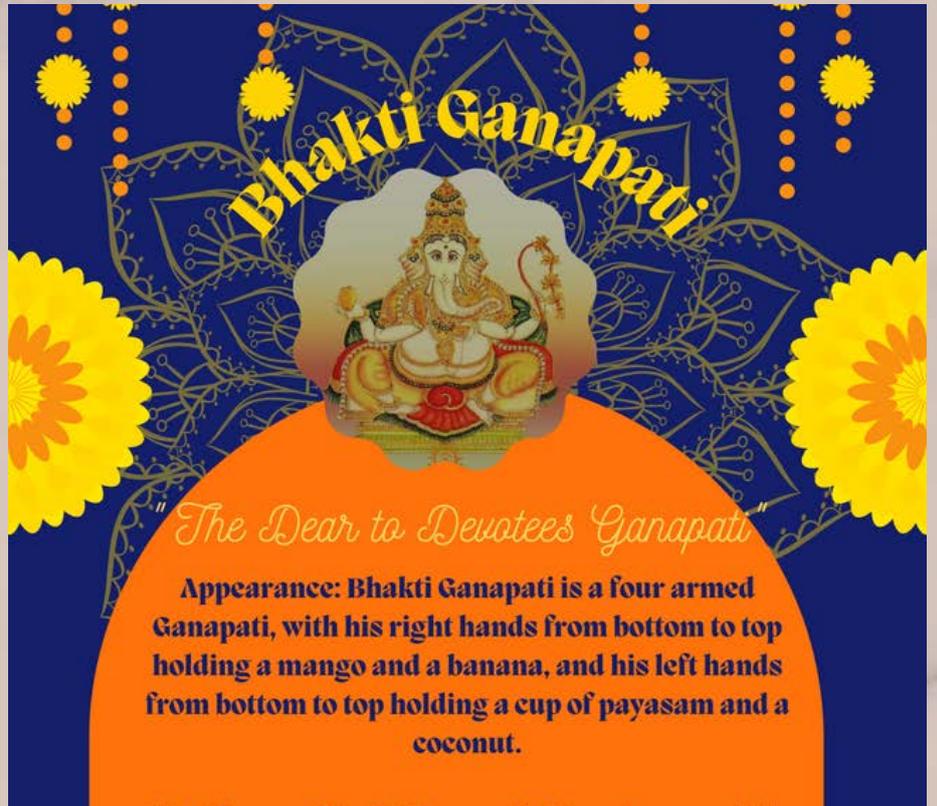

# GANPATI DARSHAN

“आस लागली तुझ्या दर्शनाची तुला डोळे  
भरून पाहण्याची कधी उजाडेल ती सोनेरी  
पहाट गणराया तुझ्या आगमनाची.”

Ganpati Chaturthi, an 11-day long festival begins with following the traditional rituals of chanting mantras and songs. All the devotees of Lord Ganesha come together irrespective of their differences of caste and color. Ganesh Chaturthi spreads joy and unites people all over.

On this precious occasion of Ganesh Chaturthi, the Social Media and Editorial Avenues of RCTCET club conducted an Info-Marathon on Instagram from 10th September 2021 to 20th September 2021. This project was named ‘Ganpati Darshan’.

The collaboration of Editorial, SMR Avenues with the Creative Team made this event very informative and attractive. The stories on the Instagram page of the club got updated for 11 days giving the information and unknown facts about our beloved Ganpati Bappa. The stories were surrounded around the 32 different forms of Lord Ganesha.

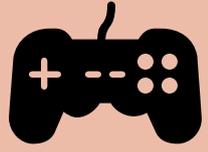

For 11 days, overall information along with the appropriate pictures of at least 3 forms of Lord Ganesha got posted on the stories.

This event made every viewer fulfilled with the amazing facts of Lord Ganesha. The event got an awesome amount of views straight from the first day. Lord Ganesha is one of the most loved Gods and learning about him made the viewers infectiously happy.

GANPATI BAPPA MORIYA

# FLASH MOB

“Cleanliness is next to godliness.”

Flashmob was an awareness spreading activity held at the Andheri railway station on the auspicious occasion of Gandhi Jayanti on 2nd October 2021. This activity was an initiative taken by the community service avenue, by the directors namely, Rtr. Allan Fernandes and Rtr. Eashan Bhale with the core intention to spread awareness towards cleanliness.

This awareness was portrayed by means of two group dances by the core members and the bod’s of the club for which they underwent tremendous amounts of practice a week prior to the actual date of performance. Ample of practice sessions were held for the performers who also volunteered for this activity.

The 1st dance was performed at 9:00 am and the latter was performed at 10:30 am, gaining a lot of attention from the crowd.

Post the performances the honourable president of our club Rtr. Kunal Miskin addressed the viewers. He shed light on the consciousness and significance of cleanliness and hygiene. And then the railway police officers were also given the opportunity to speak their point of view on cleanliness. The officers highly praised this initiative taken by our club and expressed gratitude towards the directors for such an appreciable step.

The dances were captured and later on posted on the youtube channel of the club which received amazing views crossing 400+ mark. The performers grabbed the attention of More than 70+ spectators who took out time to watch the performance till the end at the venue. Audience instantly realized the importance of cleanliness which the performers delivered through their dance. The feedback received from everyone was highly positive, encouraging and also constructive to look forward to more such activities.

Matches are an essential part of sports. They give rise to competitive spirit and sportsmanship. Moreover, matches are a kind of get-together where players, apart from playing and displaying their physical stamina, exchange ideas and information and have free and frank discussions among themselves. And when we talk about football matches, the youth of today's generation are super excited about it. The youth of our nation often plays football to refresh their minds from the stress and strains of daily life. As part of an initiative undertaken by our Sports avenue, the Men's Open Football Tournament was organized by the Rotaract club of TCET, to encourage football among our members, and also give a platform to local football players to showcase their talent.

The football tournament was played at Urban Sports Bangur Nagar, Goregaon. on 02nd October 2021. There were a total of 21 teams that were taking part in the tournament. The tournament was conducted in knockout format. Each game was of 15 mins i.e. 2 halves of 7 mins and break of 1 min.

# FOOTBALL TOURNAMENT

The winners were felicitated with cash prizes, trophies and exciting gifts. The winning team received Rs 6000 and a trophy, First runner-up received Rs. 3000 and a trophy whereas the second runner up was felicitated with a Trophy. The Best Goalkeeper and Best Player was felicitated by our guests with smart watches worth Rs.2500 to each winner. This football tournament also played a vital role in improving management and administration skills of our members, as the entire tournament was organized and handled by more than 40 volunteers of RC TCET.

The Men's Open Football Tournament held under AICTE spices and organized by RCTCET was a grand success and it witnessed more than 140 players along with more than 90 to 100 audience present in that turf which encouraged all the players and increased their enthusiasm.

# SAP-LING RIGHT!

"Someone's sitting in the shade today because someone planted a tree a long time ago."

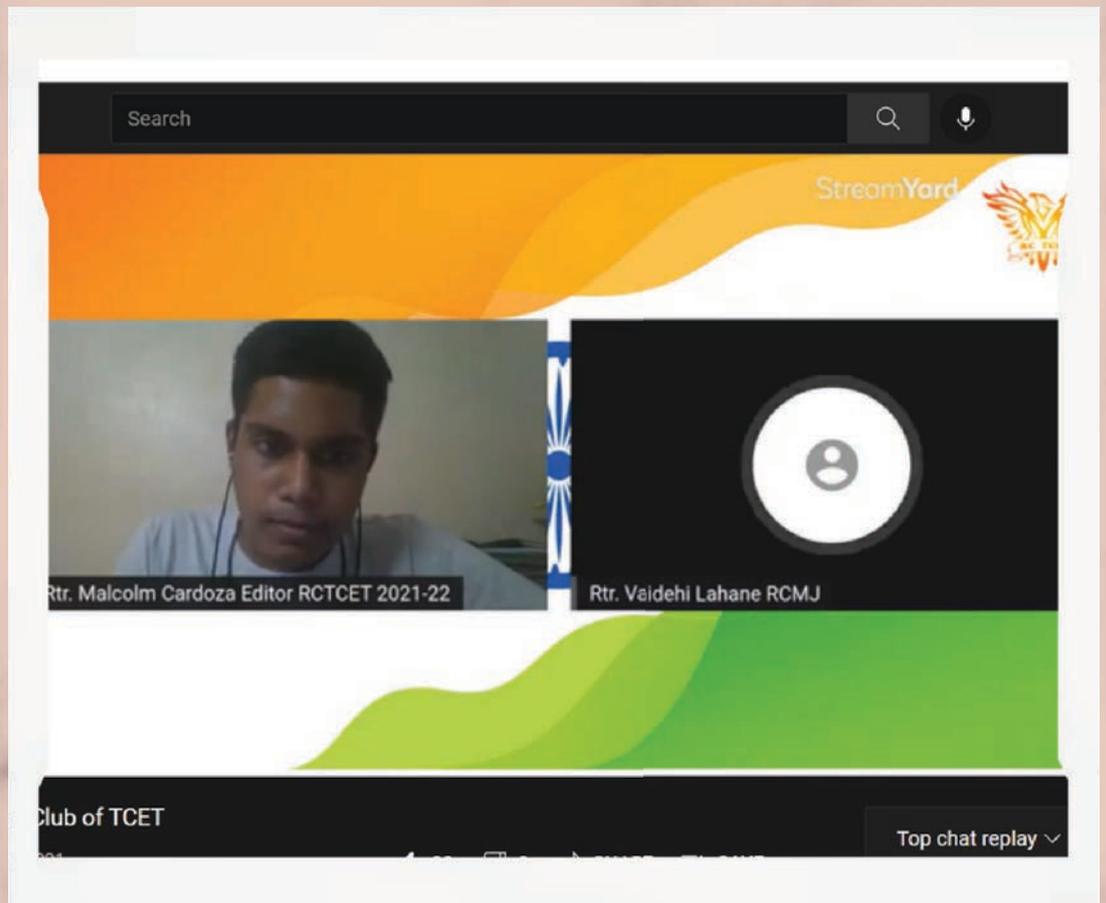

Trees are one of the greatest blessings for humans from mother earth. The most important thing one must remember is that trees do not need us, rather we need them. Apart from the countless benefits they have, trees are certainly our best friends.

Despite holding such a great significance in our lives, humans have been overexploiting trees for the longest time. Therefore, RCTCET along with RCBK and RCNWM hosted this project 'Sap-ling Right' on 3rd October 2021 at BMC Gardens, Farid Estate. There were a total of 61 members from all the clubs.

The event progressed after the President of RCTCET Rtr. Kunal Miskin and President of RCBK Rtr. Yash Savla called this event to order followed by collaring of the SAA of both the clubs. The on-ground members were divided into 3 groups and were allotted spots where they can start planting the provided saplings by the gardeners of the garden. The volunteers dug the holes and planted the saplings. After the plantation, watering to all the saplings was done along with the existing ones. The whole event was conducted under the supervision of BMC officials. The event was adjourned by both the presidents.

The participating volunteers made many memories and added one more good deed as they headed back later. This event made a record of planting more than 100 saplings in a day. The results of this will be seen soon enough in the future making that place more delightful and enlightened.

“An eye for an eye will only make the whole world blind.”

— Mahatma Gandhi.

Shri Mohandas Karamchand Gandhi also known as Mahatma Gandhi also known as Father of the Nation also known as Bapuji also known as .....well this list can be never ending. The second day of October is always a national holiday in India but sometimes we forget the reason behind the holiday. This day should be spent by honoring the memories of such a great personality.

Resonating with the same thought RCTCET arranged an activity called Mahatma Evoked. Naturally the activity started on 2nd October. The main Aim was to acknowledge and admire the greatness and sacrifice of the Father of our Nation- M.K. GANDHI. On this occasion of Gandhi Jayanti the Editorial avenue conducted an essay writing competition for all the members. Members were asked to write an essay of 100 to 150 words on the topic. The members were creative in the essay they sent and it left the organiser

# MAHATMA EVOKED

surprised. Ingenious write ups were uploaded by the members, and the number of responses were remarkable. The best article was decided by our club’s editor.

Adding a bit of surprise we asked all the selected participants to recite their essays live. The best articles were streamed live on Clubs official Youtube channel on 14th November, 2021. All the winning writers read their articles proudly in front of the entire world. The live stream happened on 14th November, which is Children's day. This activity encouraged members to show their writing skills as well as reciting skills. We celebrated Gandhi Jayanti and paid little tribute to our beloved Gandhiji.

# INDIAN AIRFORCE

“ उड़ानों में दम इतना है कि मौत भी सामने आए तो कहते हैं कि जरा रुक जा अभी और भी देश के दुश्मन मारने हैं ”

Indian Airforce is the fourth largest operational air force around the world. On 8 October 1932, the Indian Air Force came into being, and on 1st April 1954 Air Marshal Subroto Mukherjee, one of the founding members of the Air Force took over as the first Indian Chief of Air Staff. The Sukhoi Su-30MKI is the most advanced fighter jet in operation with the Indian Air Force.

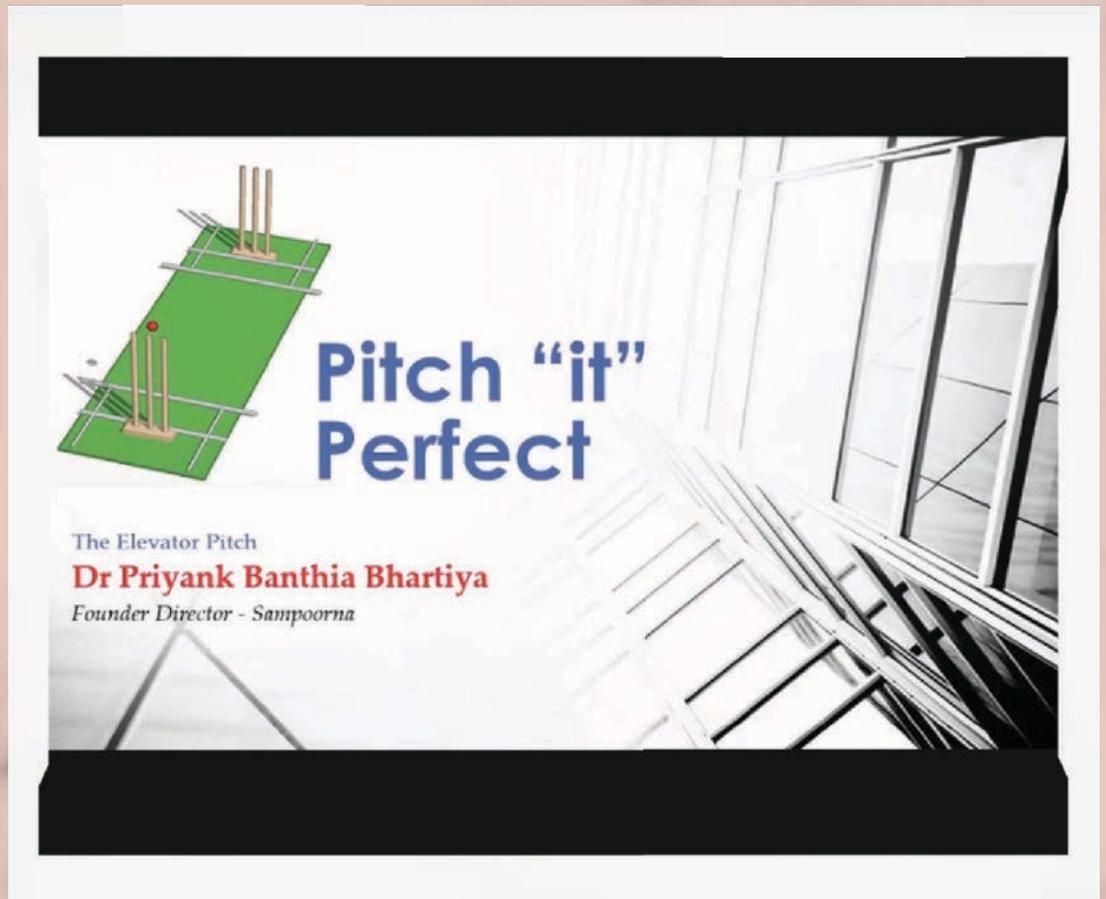

Celebrating this historic day, on 8th October 2021, International Service and Social Media Avenue of

Rotaract Club of TCET organized the project ‘Indian Airforce Day’ on social media platforms like Instagram and Facebook.

On these platforms, Rutu Shah, International Service Director of the club, revealed many unknown and interesting facts about IAF. Using the features of these platforms, online quizzes were arranged. Along with the answers to those questions, full-proof information was also shared with the viewers through Instagram stories.

Being a part of India is itself delightful. The viewers got an immense amount of accurate knowledge about IAF. This project inculcated pride among the viewers.

“Everyone has an idea, but it’s really about executing the idea and attracting other people to help you with the idea.” -Jack Dorsey.

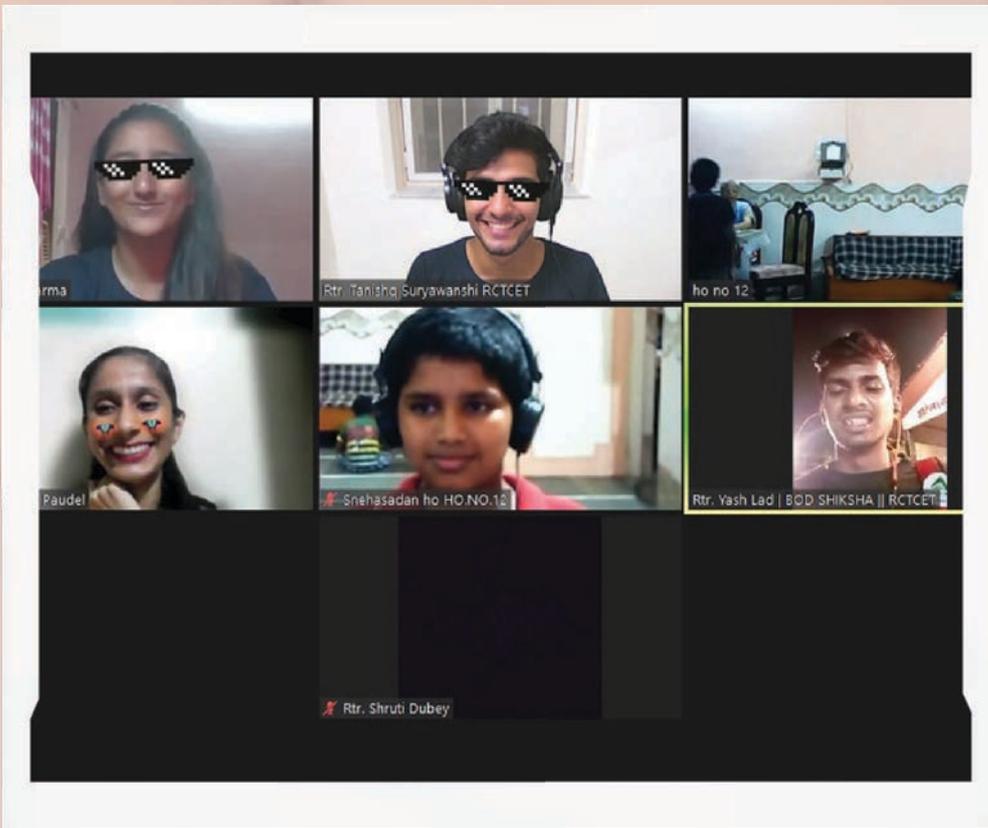

This quote is relatable to any budding entrepreneurs or anyone involved in the marketing can co-relate. Adhering to today's demand of being perfect in pitching, RCTCET arranged an amazing session with Dr. Priyank himself owns a company and is well aware about the topic.

The event preparation started with finding a suitable speaker who is good at oratory skills and an influential personality to encourage our members. The event was held on 9th of October at 6 PM. Pitching is crucial for any business to grow. Any business can be the horse of a long race if they have that perfect investor with them. This is basically gaining the trust of your investors by giving them the assurance of reduced risk. Always going with enthusiasm and a clear idea and an idea which you truly believe can work makes your work easier and gives advantages to your business.

# PITCH PERFECT

Pitch Perfect had the perfect host for the event, Rtr. Muskan Sinha. She introduced our speaker and offered him the stage. He started his session by greeting all the audience and went ahead on sharing details about the importance of pitching in marketing. Furthermore everyone was introduced and explained about Elevator's pitch and How to make one myself to all the attendees. Speaker also shared information about his organization Sampoorna which was also an inspiration for everyone to know. Pitching is crucial for business growth and success, especially in marketing and advertising. Thus, this workshop proved to be very fruitful for all attendees. This small initiative by RCTCET surely helped and ignited a spark among the attendees to be entrepreneurs.

# TECH & FUN

“One key ingredient to successful technology integration is not forgetting the fun.”- Mark Barnes.

The idea of fun in learning can be a hard one to grasp. Yet, at heart, we all know that learning is fun, or at least, it should be. Fun has a positive effect on motivation levels, if the experience is fun, learners will stay curious and keep coming back for more. If learning isn't fun, it won't be effective. Many studies highlight the positive effects of playing games, and not only for children but also for adults. Thus, to play a game is and must be linked to a man's existence.

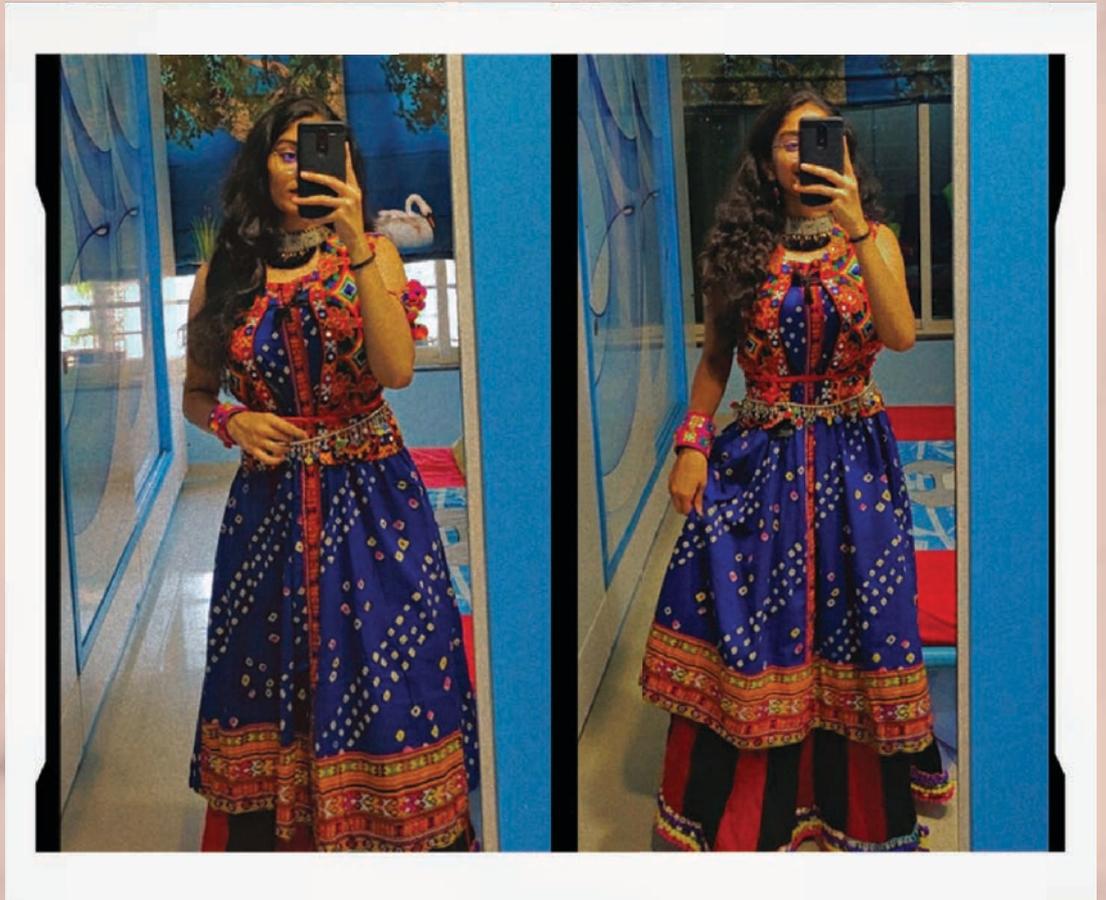

So, we at RCTCET conducted a shiksha activity- 'Tech and Fun' on 17th of October, 2021. The activity was conducted by Rtr. Shivam Dubey and Rtr. Yash Lad. The objective of his activity was to teach the basics of kineMaster and relevant basic skills to the children in a fun way.

KineMaster is a mobile application specifically designed to help Android and iOS users modify videos from ordinary videos to more interesting videos. KineMaster itself was launched by a large company called NexStreaming, headquartered in Seoul, Korea. The children were taught how to change zoom backgrounds and create GIFs using kineMaster in a fun and interacting way.

The other part of the session included educational games like quiz and memory games, in which the children actively took part. Educational games are a great way for skill building without feeling the pressure of studying. At the end of the session, a small dance was performed to make the session more interesting and memorable for the children.

Through this initiative, the club's aim was to teach the children, the basics of today's technology in a way that they had fun and enjoyed the activity. The children learned new things and were overwhelmed when the volunteers taught them the basics of video editing software. We, at RCTCET aim to conduct such helpful and insightful activities in the future as well for the all round development of students.

These days Photographs have become an integral part of everyone's life and memories. And specially when it comes to festivals everyone's phone gallery is flooded with festive vibes . So to get a sneak peak of it the International Service avenue along with sister club Rotaract Club of Bhavnagar Royals had arranged a Navratri outfit competition- Satrangi

We got to see different styles and trends throughout the competition due to the uniqueness of each and everyone's fashion. We had an entire week where all the interested participants could upload their favorite Navratri outfit via a Google form. Many members dressed up very well depicting the tradition of the place from where they belong .The beauty of 2 different states were unleashed during this week.

Later the winners were announced based on the Instagram polls conducted. The winners were given an appreciation post on Instagram. Along with the celebration, there was a very good cultural exchange.

# SATRANGI

We got to know about the cultures and traditions of different cities through this activity. All the participants enjoyed this activity very much and also suggested to conduct more such activities on occasion of other festivals as well.

The winners for Satrangi were:

1st - Rtr. Dhruvi Jagani (RCTCET)

2nd - Rtr. Prachi Bhatt (RCBR)

3rd - Rtr. Priyancy Patel (RCBR)

# OKTOBERFEST

“The sea cures all ailments of man.” -Plato

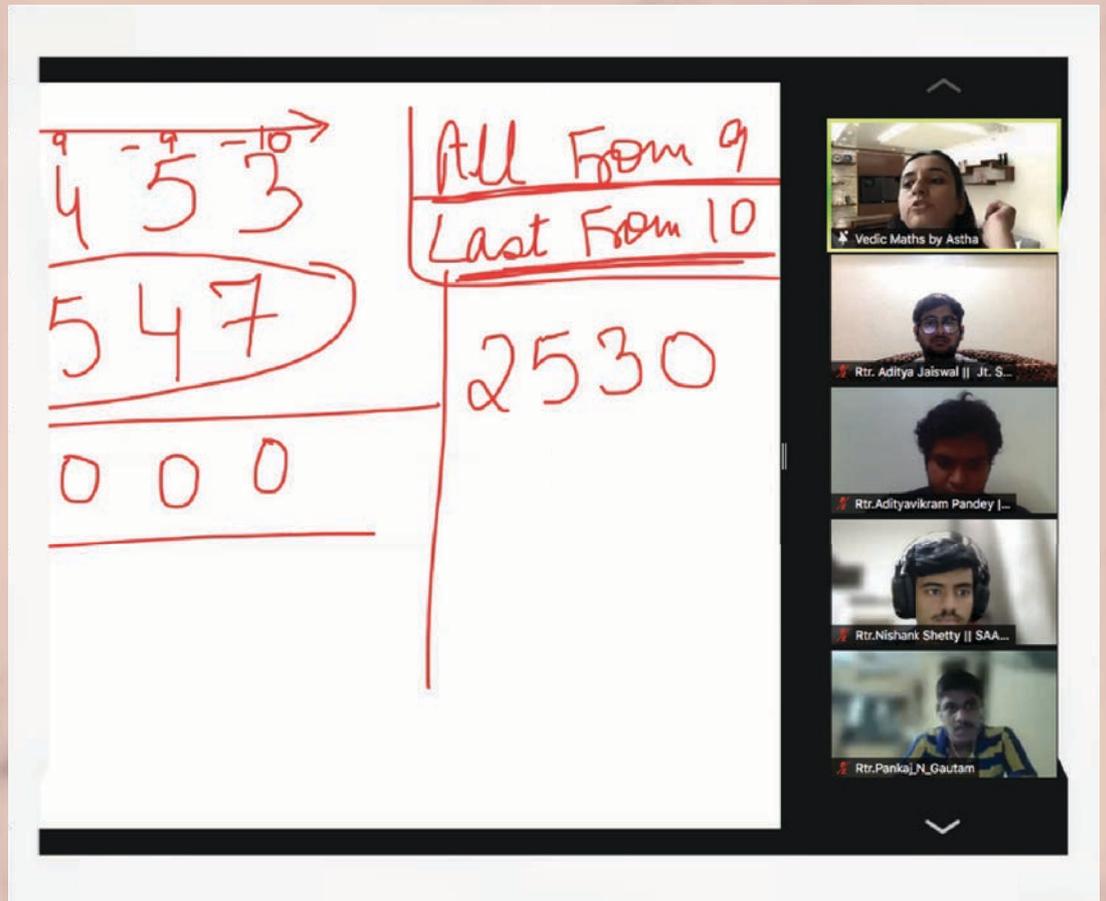

One of the most exciting events for Rotaractors are OKTOBERFEST events, where the district assigns a particular event to the club along with other collaborating clubs. There is always huge and enthusiastic participation and it gives a chance to rotaractors from various clubs to interact with each other and form unforgettable bonds with a side of sweet memories.

To bring the members together, to engage them with other members, Rotaract Club of TCET along with Rotaract Club of Khandwala, Rotaract Club of Mumbai Kandivali West, and Rotaract Club of AGBS hosted this event named ‘Beach Games’ under the OKTOBERFEST on 24th October 2021 at Aksa beach. President of RCTCET, Rtr. Kunal Miskin called this event to order. On this day, the ZRR’s of Zone 2B, Rtr. Prince Pandey and Rtr. Richa Bhavsar were present too.

The members along with the other officials present there played Cricket, Frisbee and Dodgeball. The members went to play the game they wanted. Each game was monitored by one of the OC members. The general rules were discussed by Rtr. Nipesh Dubey and Rtr. Nishank Shetty. Rtr. Nipesh Dubey, Rtr. Prince Pandey administered Frisbee and Cricket respectively.

All the games were played in a very friendly manner. People enjoyed themselves and made new connections. The members enjoyed some fruitful workouts. The aim of the event was achieved by the end and the event was a grand success!

The Rotaract Academy 2-“Back to School - Vedic Maths " was a really fun activity that taught us to do Mathematics without using a calculator, Basically Vedic Maths which was amazing. This activity was conducted by Professional Development Avenue.

After greetings offered by Rtr. Adityavikram Pandey the session was handed over to Ms. Astha Grover Ma'am ,The Mathematician of the Day. The session had a great start as in included some history of Vedic Maths which captivated the minds of the entire audience.

The further session included some really fun and interesting tricks to solve lengthy Mathematics in just fraction of seconds. It comprised of the quickest and easiest ways of addition and subtraction ,

# ROTARACT ACADEMY 2

A which could be used for 4 digits numbers or more.

After this fun learning hour there was a doubt session where all the tiny knots in the mind regarding these tricks were resolved . The participants also practiced some examples during the session to get a quick grasp of the topic.

The feedback received by the participants was positive. All the attendees were overwhelmed after this fruitful session. They were glad that they got the opportunity to meet such a knowledgeable speaker. Each and every attendee thoroughly enjoyed the event.

# BEACH CLEAN UP

The sun was out, skies were an unmistakable blue, the typically cloudy waters of the Arabian ocean at Juhu beach mirrored a brilliance too that wrapped the volunteers who had assembled getting more colours on a lively morning. Rotaract Club of TCET organized one of its most awaited legacy project, THE BEACH CLEANUP. The Beach Clean-up activity was conducted on 31st October 2021 in collaboration with Khushiyan Foundation at Juhu Beach. The activity was called to order by the President, Rtr. Kunal Misikin followed by the national anthem at 8:30 am. Participants were briefed about the importance of waste segregated accordingly.

The Rajesh Kava, a famous voice artist who had been invited as the guest of honour addressed the volunteers and appreciated their efforts on saving the beaches. The necessary resources for clean-up such as gloves and baskets were provided by the foundation.

The members enthusiastically participated in cleaning the beach for more than 2 hours. Post clean-up fun beach games like volleyball, dodge ball, frizz bee had been organized for the members. There were refreshments which were arranged for the volunteers. The activity was adjourned at 11:30 am. We want to thank our members for their commitment to this cause. Volunteers like them help to ensure a clean and healthy coast for years to come.

# GOODBYE, ADIOS, SAYONARA!

---

**“There are no goodbyes for us. Wherever you are, you will always be in my heart.” -**

**-Mahatma Gandhi**

**Oh, what a thrilling journey it has been through this year! So many amazing activities, events, and oh, all the happy memories! But sadly, as all things in nature come to their eventual end, we also have reached the end of our magazine. Although we have to say that we truly had a great time presenting all our creative and inspirational activities to our magazine readers. It was certainly a great opportunity for us to yet again showcase our various undertakings for the betterment of society at large!**

**At this juncture, as we, the Rotaract Club of TCET feel immense resolve and gratitude, it wouldn't be fair for us to neglect the timely and unhindered supporting factors contributing to our numerous successful activities. These contributing factors include our primary supporting and guiding figures in our faculty as well as in the Rotaract and Rotary District Organizations, without whom we probably would never have been able to create the marked difference that we did in this Rotaract Year! Further, we would also like to express our heartfelt gratitude to all our various collaborators, including all the NGOs, local authorities, other collaborating Rotaract Clubs, our sponsors and so on, for providing their invaluable contributions to our Club's activities and events. And of course, how can we ever forget our dear members and their immense contributions to all our projects! Without their active and dedicated support, we would surely have faced a lot of difficulties in realizing our goals and ambitions set for this year! We wholeheartedly thank them for all their contributions to our successes and hope to collaborate and develop deeper ties with each other in future too!**

**As we come to the very end of our magazine, we would also like to take this opportunity to inspire our readers for one last time by instilling in them the fire of service to humanity and nurturing a compassionate behavior in them, to make them the future guiding lights of the world! With this, we bid all our magazine readers, a truly eventful future. Hoping to meet all of you soon. Goodbye, adios, and sayonara!**
