

CSI-TCET

STUDENT CHAPTER

Dean's Message

I would like to start by congratulating the faculty and students of the CSI-TCET for their perseverance shown in the odd semester and for completing the fifth edition of the bulletin, highlighting them. Their hard work and complete dedication is reflected across its pages. Always facing the odds, the faculty and student members of CSI-TCET have always performed with the best results.

This bulletin is the promise of our dedicated and focused students to carry out fruitful activities for the department. The CSI-TCET student chapter represents the enthusiasm of students towards cultivating a better society through innovation and technology. Providing a stage for all round development of students with a healthy learning experience through curricular and extra-curricular activities is the core objective of CSI. With this issue of CSI's e-Bulletin, I hope that we keep moving forward in this direction. I wish all students success in future.

Dr. R..R. Sedamkar

HOD's Message

Learning takes place not only through books and the lectures you attend; it is also grasped through experiences. The members of CSI-TCET attempt to carry this baton of learning by providing with multiple co-curricular and extra-curricular activities. For this, I would like to thank and congratulate the faculty and student members of CSI-TCET for conducting and helping most of the department's activities. Their diligence has always been a source of inspiration for the department. The e-bulletin highlights the lofty achievements of the CSI-TCET core in the odd semester and I wish the committee such success for the next years to come.

Dr. Sheetal Rath

Faculty's Message

The unremitting efforts of CSI committee students and faculty and their will to keep evolving as a collaborative team have brought forward a magnificent array of space for people to recognize and be a part of it. I congratulate my team members for this wonderful accomplishment and being successful for reflecting all the activities to students through CSI's e-Bulletin.

Mr. Vikas Singh

We at CSI-TCET wish to provide the best opportunity for students to showcase their talents, spread an ideology and maintain the professionalism required. Lastly I would like to congratulate the CSI committee for bringing their fourth e-Bulletin successfully. All of their creative minds have collectively come together to create it for the students.

-Mr. Shailesh Sangle

I would like to congratulate the committee members for their endeavours. The bulletin will play an instrumental role in providing exposure to other students about the happenings of CSI and help understand how they can make something great with the department, for the department.

Ms. Prachi Janrao

About Us

CSI-TCET is the student branch of the Computer Society of India (CSI) at Thakur College of Engineering and Technology (TCET), Mumbai. Today, CSI has members from all over the nation including famous industry leaders, brilliant scientists, and dedicated academicians. The goal of CSI is to inculcate within individuals research, knowledge sharing, learning & career enhancement, while simultaneously inspiring and nurturing new talent and innovations. CSI-TCET aims to provide the students of TCET, across all four departments, the best opportunities and confidence to gather knowledge, build an open and creative ideology and gain experience in varied fields and thus help them become better professionals and gain better skillsets. There are more than 170 registered members and the chapter is still growing and moving forward day by day. Activities are being continuously performed and conducted successfully. CSI-TCET has gone on to become one of the most active student professional body at TCET. We thank all our members for getting involved with us, supporting us and helping us grow.

CSI-TCET CORE COMMITTEE

Vice-Chairperson : Dhruval Shah

Secretary : Paarth Singh Dahima

Treasurer : Prashant Goswami

Event Manager : Bhavin Gundecha

Sponsorship Head : Tanishq Dwivedi

Publication Head : Arya Mishra

Web Master Co-ordinator : Aayushi Sarda

SEMINAR ON HIGHER STUDIES

In order to spread awareness about the overseas education process and procedures CSI – TCET conducted a seminar on Higher Studies on the 23rd of August, 2019 by Mr. Sazel Shah . A great number of students have been planning for a higher education so this seminar helped them to understand the prerequisites, the process and the most common pitfalls experienced by the students.

ZEPHYR 2019

One of the most noteworthy events of the TCET i.e. ZEPHYR the technical fest of Thakur College of Engineering and Technology. CSI-TCET acted as an important source of support to the organizing of the event. The theme of this year's event was "TECHNOBUZZ" and was celebrated on 27th, 28th and 29th September. Right from bringing in sponsors for events to participant registrations and running the event with efficiency and smooth flow, committee members had given it their day and night to make the event a grand success such that it would be made a memory worth remembering. Various events were conducted under the banner and leadership of CSI-TCET.

We hosted 8 events in total which included: Two workshops on Machine learning and Data Science, A competitive coding competition called Quantam code, A gaming event to satisfy all the gamers across the town, Rink football and Box cricket for all the sports enthusiast, A salsa workshop to groove to some relaxing tunes and a human snakes and ladder game for the trip down the memory lane.

TEAM BUILDING ORIENTATION

CSI-TCET brings you something new - the likes of which has never been seen here before. So a Team Building Orientation was conducted on 3rd October 2019. Team Building and working in a team is quite an essential skillset in the industry. Team Building helps an individual to improve Role Clarification, Problem Solving and inter-personal relations. Goal setting and role clarification have the greatest impact because they enhance motivation, reduce conflict.

ANDROID APP DEVELOPMENT WORKSHOP

CSI
TCET

CSI-TCET conducted a workshop on Android Application Development on the 2nd of November. The instructors for the workshop were Ankur Singh and Ashutosh Singh from Savvy Tech Solutions. The students learnt about the various factors involved in app development. They got hands on experience under expert supervision and developed their first application. It was an educating experience and helped them add another skill to their set.

WEBINAR ON IOT

The IOT Webinar was conducted on the 8th November 2019 by Mr. Pranav Pai Varnekar. The students got an insight as to how internet of things helps people live and work smarter as well as provides businesses with a real-time look into how their companies' systems really work, delivering insights into everything from the performance of machines to supply chain and logistics operations.

WEBINAR ON MACHINE LEARNING

CSI – TCET conducted a Webinar on Machine Learning was conducted on 11th of November. Machine Learning is giving machines the ability to learn. By using algorithms to build models that uncover connections, students learnt how decisions can be made without human involvement. In this way, machine learning was used by them to achieve higher levels of efficiency. Machine Learning is one of the most trending field in technology and new and optimized algorithms are being built to make lives simpler.
