Notice

23/08/2023

To: All the students

Subject: Open house and Revaluation facility for Theory papers of Supplementary and ATKT examinations.

All the students are hereby informed about an important decision made during the recent Board of Examination meeting regarding the Open house and revaluation facility for theory papers of Supplementary and ATKT examinations also.

As per the decision the revaluation facility will be provided to students who have appeared for the Supplementary and ATKT examinations. This facility is aimed at ensuring fairness and transparency in the evaluation process and offering an opportunity for students to review their answer scripts. The revaluation will be conducted by an independent panel of examiners.

The interested students need to register for the open house by filling the prescribed form within the scheduled date. After the open house, the student can apply for the revaluation in the prescribed form with the requisite fees. Once the revaluation applications are received within the stipulated time frame, the evaluation process will begin. The revaluation results will be communicated to the students as soon as they are available. In case the revaluation leads to a change in marks, the results will be updated.
