Description:

International Women's Day is celebrated in many countries around the world. It is a day when women are recognized for their achievements without regard to divisions, whether national, ethnic, linguistic, cultural, economic or political. It is a day to spread awareness among the people regarding women's rights and gender equality. This day celebrates the social, economic, cultural and political achievements of women. Also, to encourage the women out there that no hurdles can stop them from accomplishing their dream.

There was a Webinar for the female faculty, where we were delighted to have Ms. Indrayani Hazare (Dietitian and Nutritionist) as our speaker for the day. She emphasized on the importance of women health and gave profound knowledge about taking care of the body for maximum productivity.

In today's world women are found performing various roles. In this busy life most of the women tend to neglect their health, which later leads to serious issues. Dr Indrayani hence stressed on the need of physical and mental wellbeing of a women.

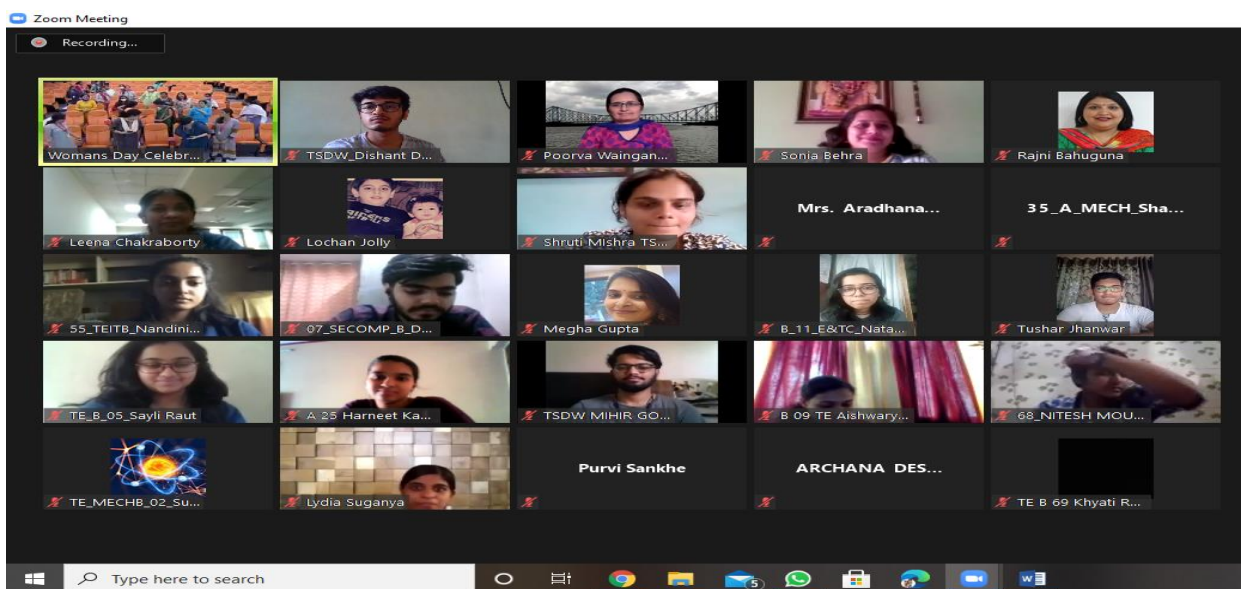

Later there was an interactive session for all the students. Ms. Shruti Mishra engaged the audience in a fun and informative session of 'Guess Who', where we were shown images of some highly accomplished women, and got to know more about them. There were various performances including dance performance and a short monologue by the female staff members of the college, and numerous singing and poetry recitations by students. Video recordings of a dance performance and creation of artwork were also presented. At the end of the event, we had a group photo.
